**Initial Registration (Not Required for Re-Registration)**

Provide the method (mass balance or material usage rates) expected to be used to demonstrate compliance with Rule 62-210.310(4)(f)2., F.A.C. Provide the estimated amount of materials containing hazardous air pollutants and solvent-containing materials expected to be used over a 12-month period.

N/A

**Re-Registration (Not Required for Initial Registration)**

Provide the highest 12-month total quantity of materials containing hazardous air pollutants and the highest 12-month total quantity of solvent-containing materials used in the last five years to show compliance with sub-subparagraph 62-210.310(4)(f)2.b., F.A.C. (material usage rates) or provide all calculations to show compliance with sub-subparagraph 62-210.310(4)(f)2.a., F.A.C. (mass balance).

The facility is in full compliance with sub-subparagraph 62-210.310(4)(f)2.a., F.A.C. In the past five years:

- The highest consecutive 12-month rolling total volatile organic compound emissions were 28 tons (below the 80 ton limit);
- The highest consecutive 12-month rolling total individual hazardous air pollutant emissions were 2.8 tons (below the 8 ton limit); and
- The highest consecutive 12-month rolling total combined hazardous air pollutant emissions were 3.4 tons (below the 20 ton limit).

The attached calculation spreadsheets show sheetfed ink, fountain solutions, and blanket washes are used on the presses. A retention factor of 95% for the sheetfed inks is used in the calculations, and there are no emissions control units located at the facility.

For background information, the Florida Today/USA Today facility owned by Gannett Company, Inc. located at One Gannett Plaza in Melbourne, Florida is a newspaper sheetfed non-heatset offset printer. The facility has three presses in operation since 1985, a Goss Headliner with 3 uniliner Towers with a maximum press speed of 70,000 cph; a Goss Suburban with a maximum press speed of 22,000 cph; and a Goss with a maximum press speed of 70,000 cph.

## Air General Permit Example Registration Worksheet

The Department of Environmental Protection (“Department” or “DEP”) has established an “air general permit” at Florida Administrative Code (“F.A.C.”) Rule 62-210.310(4)(f) for printing operations. An air general permit is an authorization by rule to construct or operate a specific type of air pollutant emitting facility. Use of such authorization by any individual facility does not require action by the Department. The terms and conditions of the air general permit are set forth in the rule, rather than in a separately issued air construction or air operation permit.

If you are the owner or operator of an eligible facility comprising one or more printing operations, you may register to use the air general permit at Rule 62-210.310(4)(f), F.A.C., by following the general procedures given at subsections 62-210.310(2) and 62-210.310 (3), F.A.C. To register, use the Department’s electronic registration system (currently under development) or submit all the information specified in the above rules to either of the following addresses, along with the air general permit registration processing fee (\$100.00), payable to FDEP.

### **Regular USPS Mail Delivery**

Department of Environmental Protection  
Receipts  
Post Office Box 3070  
Tallahassee, Florida 32315-3070

or

### **Overnight Delivery (FedEx, UPS, DHL, etc.)**

Department of Environmental Protection  
3800 Commonwealth Blvd.  
Mail Station 77  
Tallahassee, Florida 32399

If you properly register to use an air general permit, and are not denied use of the air general permit by the Department, you are authorized to construct and operate the facility in accordance with the general terms and conditions of Rule 62-210.310, F.A.C., and the specific terms and conditions of Rule 62-210.310(4)(f), F.A.C. Your facility may vary, so be sure your registration describes the operations at your facility in sufficient detail to demonstrate the facility’s eligibility for use of the air general permit and to provide a basis for tracking any future equipment or process changes. Your registration should describe all air pollutant-emitting processes and equipment at the facility, and it should identify any air pollution control measures or equipment used.

The rules do not require any specific format for the registration. This worksheet, however, has been designed to assist owners and operators. Using it as a template for a general permit registration will help ensure that all necessary information is submitted.

Additional information can be found on the Department’s air general permit program website ([http://www.floridadep.org/air/emission/air\\_gp.htm](http://www.floridadep.org/air/emission/air_gp.htm)) or by calling the Small Business Environmental Assistance Program Hotline at 1-800-SBAP-HLP (1-800-722-7457).
