Mr. William Tribble
Operations Manager
Banaszak Concrete Corporation
Hollywood Plant

Hollywood, Florida 33021

Dear Mr. Tribble:

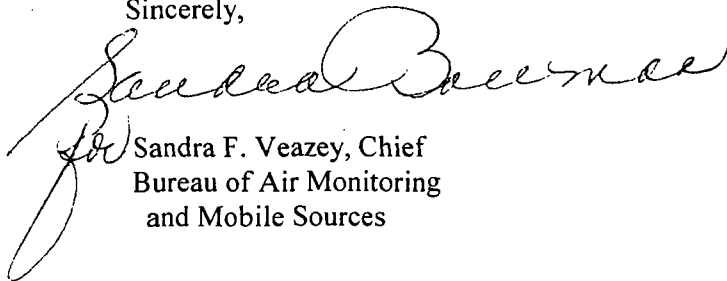

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on February 4, 2009. We have assigned ARMS No. 0110047-003 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type

0110047-003

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
 Continue operating the facility after a change of ownership.
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
 No air operation permits currently exist for this facility.

Dear Mr. William Tribble,

It was a pleasure to speak with you and Mr. Banaszak today regarding the application (copy attached as a .pdf file) which you have submitted for the purpose of renewing the Concrete Batching Plant Air General Permit for the Hollywood plant.

To recap our conversation:

- 1) On page nine (9), whoever is listed as the **Owner/Authorized Representative** is also the person who must sign and date the signature page.
- 2) On page ten (10), it asks to provide the following:

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

For example:

Equipment

Identify each silo – Mfr, model #, capacity in Bbls or Tons, silo loading rates (T/hr), product contained
 List any batcher, weigh hopper, truck loadout if you have it, including any associated emission control(s) or processes

Control devices

Identify baghouses/dust collectors – Mfr, model #, ft² of filter surface area, silotop or ground mounted, central or individual, and the equipment they control

Also provide a brief description of this plant's typical process of operation as you did during our conversation.

Once you have completed the application please **mail via USPS**, the original updated copy to the following address:
