AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET 2011

DIVISION OF AIR
RESOURCE MANAGEMENT

Facility Identification Number - If known (seven digit number)

0112088

0112088-005

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)
- Operates an existing facility not currently permitted or using an air general permit.

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C.
- Any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

N/A

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Karl Loeffler

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.)

Karl's Pumping and Placing, INC

Facility Location (Physical location of the facility, not necessarily the mailing address.)

Street Address: 2038 NW 40th Court

City: Pompano Beach

County: Broward

Zip Code: 33064 - 8706

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility.)

Type of Facility

Check one:
 Stationary Facility Relocatable Facility

Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions

Check all precautions to be used for the management of roads, parking areas, stock piles and yards:

Pave Roads **Pave Parking Areas** **Pave Yards**
 Maintain Roads/Parking/Yards **Use Water Application** **Use Dust Suppressant**
 Remove Particulate Matter **Reduce Stock Pile Height** **Install Wind Breaks**

Check all precautions to be used for the management of drop points to trucks:

Spray Bar **Chute** **Enclosure**
 Partial enclosure

Equipment Details Provide information for each silo, weigh hopper (batcher), and other enclosed storage and conveying equipment that are limited to a visible emissions of 5 percent opacity pursuant to Rule 62-296.414(1), F.A.C.

PROCESS EQUIPMENT TYPE (silo, weigh hopper, batcher, etc.)	PROCESS EQUIPMENT IDENTIFICATION*	CONTROL DEVICE (baghouse, vent filter, etc.)	CONTROL DEVICE MANUFACTURER	CONTROL DEVICE MODEL NUMBER
Silo		Baghouse	Columbus bin Co.	DCS-250
Weigh hopper		baghouse		

* If there are multiple pieces of the same types of process equipment (more than one silo, etc), provide an identifier (location, numeric designation, capacity or product) specific to each piece of equipment.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe type of concrete product(s) manufactured, all air pollutant-emitting processes, and identify any air pollution control measures used. Mobile source equipment information is not needed (eg.: trucks, bulldozers, front-end loaders, etc.)

Karl's Pumping & Placing batch plant operations involve ordering bulk cement and Aggregates which are kept in the silo and ground compartment. The cement and aggregate are then weighed and mixed into a concrete truck. The cement is gravity fed to truck. Aggregates are conveyed to truck by a belt.

Model # DCS - 150

Compact, complete and ready to install, Model DCS-150 has forty-two 4½ inch canvas collection bags providing one hundred and fifty square feet of surface filter area. The bag shaker frame is powered by a ½ horsepower electric motor with V-belt drive. The unit is enclosed in a heavy duty 14 gauge steel enclosure, which is primed and enameled to assure maximum protection. A removable sealed door provides for fast and easy access. A 10 inch high base is standard, permitting simple installation on either a flat or sloped surface. Intake capacity is capable of handling one, five inch line blowing cement.*

Model # DCS - 250

Designed and constructed for greater efficiency and to meet the requirements of handling two, five inch lines blowing cement or one five inch line blowing fly ash, Model DCS-250 comes complete and immediately ready for fast and easy installation. The unit has 250 square feet of surface filter area.

The bag shaker is powered by a heavy duty ½ horsepower, 110V-60 Hz, 1800 RPM electric motor with V-belt drive to Eccentric shaft.

The unit is housed in a primed and enameled 14 gauge steel enclosure. Supported by a 10 inch high heavy duty steel base, the Model DCS-250 can be welded onto a flat or sloped surface.*

Total Package concept . . . no additional equipment is needed.
Completely operative upon installation.
Immediate delivery.
