## SURFACE COATING OPERATIONS Ureau of Air Modification AIR GENERAL PERMIT REGISTRATION FOR Mobile Sources

## Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form) 0112521-003

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to: Continue operating the facility after expiration of the current term of air general permit use. Continue operating the facility after a change of ownership. Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.  Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only  If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.  All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):  No air operation permits currently exist for this facility.  General Facility Information  Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)  Bob Osbon  Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)  Tesus Equipment LLC  Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)  Street Address: 3661 VW 126 B Avenue  County:  County:  Zip Code:  33065-24  Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)	Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).
Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only  If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.  All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):  No air operation permits currently exist for this facility.  General Facility Information  Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)  Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)  Tesa Equipment LLC  Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)  Street Address: 3466 NW 1267 Avenue  County:  County:	Continue operating the facility after expiration of the current term of air general permit use.  Continue operating the facility after a change of ownership.
If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.  All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):  No air operation permits currently exist for this facility.  General Facility Information  Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)  Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)  Tesus Equipment LLC  Facility Location (Provide the physical location of the facility, not necessarily the mailing address.) ## Material Usage Rates

If this is an initial registration for a surface coating operation, provide an estimate of the average quantity of volatile organic compounds in all coatings (solvents and thinners) expected to be used on a daily basis.

If this is a **re-registration** for an existing surface coating operation, provide the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) used in the last five years. Indicate the month and year during which this usage occurred.

16.72 Party Average - January 2009 334.32 Blol - January 2009

## **Description of Facility**

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Substrate preparation is completed using a wife down process with Kwik Dri 66 along with hand sanding. A Sherwin William low VOC Genesis Coating system is used that include an epoxy primer and a wrether top Coat. The coating system is applied in a tiltered paint booth. Cleany is done with thinner which is recycled.

DEP Form No. 62-210.920(1)(c) Effective: January 10, 2007
