DIVISION OF AIR
SURFACE COATING OPERATIONS RESOURCE MANAGEMENT
AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET

Facility Identification Number (If known)

0112577-004

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)
- Operates an existing facility not currently permitted or using an air general permit.

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Brilliant of Hollywood, Inc. (Everardo Fonseca-owner)

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.)

Brilliant of Hollywood, Inc.

Facility Location (Physical location of the facility, not necessarily the mailing address.)

Street Address: 2133 Pembroke Rd.

City: Hollywood

County: Broward

Zip Code: 33020-6250

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility.)

SURFACE COATING OPERATIONS

Air General Permit Example Registration Worksheet

The Department of Environmental Protection ("Department" or "DEP") has established an "air general permit" at Florida Administrative Code ("F.A.C.") Rule 62-210.310(4)(c) for surface coating. An air general permit is an authorization by rule to construct or operate a specific type of air pollutant emitting facility. Use of such authorization by any individual facility does not require action by the Department. The terms and conditions of the air general permit are set forth in the rule, rather than in a separately issued air construction or air operation permit.

If you are the owner or operator of an eligible facility comprising one or more surface coating operations may register to use the air general permit at Rule 62-210.310(4)(c), F.A.C., by following the general procedures given at subsections 62-210.310(2) and 62-210.310 (3), F.A.C. To register, use the Department's electronic registration system (currently under development) or submit all the information specified in the above rules to either of the following addresses, along with the air general permit registration processing fee (\$100.00). FDEP

Regular USPS Mail Delivery

or

Overnight Delivery (FedEx, UPS, DHL, etc.)

Department of Environmental Protection
3800 Commonwealth Blvd.
Mail Station 77
Tallahassee, Florida 32399

If you properly register to use an air general permit, and are not denied use of the air general permit by the Department, you are authorized to construct and operate the facility in accordance with the general terms and conditions of Rule 62-210.310, F.A.C., and the specific terms and conditions of Rule 62-210.310(4)(c), F.A.C. Your facility may vary, so be sure your registration describes the operations at your facility in sufficient detail to demonstrate the facility's eligibility for use of the air general permit and to provide a basis for tracking any future equipment or process changes. Your registration should describe all air pollutant-emitting processes and equipment at the facility, and it should identify any air pollution control measures or equipment used.

The rules do not require any specific format for the registration. This worksheet, however, has been designed to assist owners and operators. Using it as a template for a general permit registration will help ensure that all necessary information is submitted.

Additional information can be found on the Department's air general permit program website (http://www.floridadep.org/air/emission/air_gp.htm) or by calling the Small Business Environmental Assistance Program Hotline at 1-800-SBAP-HLP (1-800-722-7457).

Facility Contact

Material Usage Rates

If this is an **initial registration** for a surface coating operation, provide an estimate of the average quantity of volatile organic compounds in all coatings (solvents and thinners) expected to be used on a daily basis.

If this is a **re-registration** for an existing surface coating operation, provide the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) used in the last five years. Indicate the month and year during which this usage occurred.

16.857

September 2010

505.50 lbs that month

* SEE ATTACHED E-MAIL DATED 02/16/12 AS AN ADDENDUM TO THIS FORM.

Description of Facility

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

We are a paint and body shop and collision repair facility. Our spray guns are all high volume, low pressure. Our prep area is indoors and enclosed & we use filters in prep area. Our spray booth is a down draft booth with cross

Helpful Definitions

- “Coating” - The application of a protective, decorative, or functional film to a surface.
- “Department” or “DEP” - The State of Florida Department of Environmental Protection.
- “Emissions Unit” - Any part or activity of a facility that emits or has the potential to emit any air pollutant.
- “Facility” - All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).
- “Owner” or “Operator” - Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.

Subject: Re: Surface Coating Operations Air General Permit Registration renewal for ARMS ID# 0112577, Brilliant of Hollywood Inc, 2133 Pembroke Rd, Hollywood, FL 33020

Mr. Dibble,

My apologies on the mistake. That number was for the whole month not the daily. If you divide it by thirty that is the daily average for that month which was 16.85 lbs./day.

I hope this clears it up.
If you need anything else, please let me know.

Regards,

Lisette Fonseca

Hollywood, FL 33020

February 16, 2012

Dear Mr. Fonseca,

I am in receipt of the subject-item registration which you submitted for the purpose of renewing your entitlement to operate a surface coating operation.

I am in need of some clarification on page four (4) of the form, where it asks:

"If this is a re-registration for an existing surface coating operation, provide the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) used in the last five years. Indicate the month and year during which this usage occurred."

The answers you have provided were as follows: **"September 2010 - 505.50 lbs that month"**

My concern to you is that the Surface Coating Operations Air General Permit regulations limit the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) to **44 pounds (lbs) per day, averaged monthly**. The number (505.50 lbs) you have indicated on your registration far exceeds those limits.

- 1) My question to you is, "Does the 505.50 lbs represent all of the VOC's used during the month, or is that the daily average for that month.?"
- 2) If #1) above represents the total of all VOC use (505.50 lbs) for the month then you need to provide us with the daily average for that month (See letter a) below).

- a) If the 505.50 lbs of VOC represents total VOC's for the month then in order to obtain the daily average for the month you must divide the monthly use by thirty (30) days.

"When calculating *"the highest monthly average of the daily quantity of volatile organic compounds (VOC) in all coatings (solvents & thinners)"*, use thirty (30) days as the denominator, regardless of the number of days you operated, or the number of actual days in the month.

Formula: *Using the highest month of VOC use in the last five years* → (lbs VOC/mo ÷ 30 days/mo) = VOC lbs/day

- b) If the 505.50 lbs of VOC use represents the daily average then you may not be eligible for the air general permit.

Please reply via e-mail and I will attach it as an addendum to your registration

Thank you for your immediate attention to this matter and should you have any questions, comments or concerns please e-mail or call.

Have a great day!

Sincerely yours,

Dickson E. Dibble
