Material Usage Rates

If this is an initial registration for a surface coating operation, provide an estimate of the average quantity of volatile organic compounds in all coatings (solvents and thinners) expected to be used on a daily basis.

If this is a re-registration for an existing surface coating operation, provide the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) used in the last five years. Indicate the month and year during which this usage occurred.

NOT KNOWN. IN THE PAST 5 MONTHS I WOULD ESTIMATE MY⁰ MONTHLY USAGE AT UNDER 5 GALLONS, MAYBE 1-2 GALLONS PER MONTH.

Description of Facility

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

WHEN PAINT IS SPRAYED, BOATS ARE BAGGED AND ANY AND ALL CONTAMINANTS ARE SWEEP UP AND DISCARDED IN SEALED BAGS. THE SAME PRACTICE IS USED WHEN SANDING BOATS.

Helpful Definitions

"Coating" - The application of a protective, decorative, or functional film to a surface.

"Department" or **"DEP"** - The State of Florida Department of Environmental Protection.

"Emissions Unit" - Any part or activity of a facility that emits or has the potential to emit any air pollutant.

"Facility" - All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).

"Owner" or **"Operator"** - Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.

SURFACE COATING OPERATIONS

Air General Permit Example Registration Worksheet

The Department of Environmental Protection ("Department" or "DEP") has established an "air general permit" at Florida Administrative Code ("F.A.C.") Rule 62-210.310(4)(c) for surface coating. An air general permit is an authorization by rule to construct or operate a specific type of air pollutant emitting facility. Use of such authorization by any individual facility does not require action by the Department. The terms and conditions of the air general permit are set forth in the rule, rather than in a separately issued air construction or air operation permit.

If you are the owner or operator of an eligible facility comprising one or more surface coating operations may register to use the air general permit at Rule 62-210.310(4)(c), F.A.C., by following the general procedures given at subsections 62-210.310(2) and 62-210.310 (3), F.A.C. To register, use the Department's electronic registration system (currently under development) or submit all the information specified in the above rules to either of the following addresses, along with the air general permit registration processing fee (\$100.00).

If you properly register to use an air general permit, and are not denied use of the air general permit by the Department, you are authorized to construct and operate the facility in accordance with the general terms and conditions of Rule 62-210.310, F.A.C., and the specific terms and conditions of Rule 62-210.310(4)(c), F.A.C. Your facility may vary, so be sure your registration describes the operations at your facility in sufficient detail to demonstrate the facility's eligibility for use of the air general permit and to provide a basis for tracking any future equipment or process changes. Your registration should describe all air pollutant-emitting processes and equipment at the facility, and it should identify any air pollution control measures or equipment used.

The rules do not require any specific format for the registration. This worksheet, however, has been designed to assist owners and operators. Using it as a template for a general permit registration will help ensure that all necessary information is submitted.

Additional information can be found on the Department's air general permit program website (http://www.floridadep.org/air/emission/air_gp.htm) or by calling the Small Business Environmental Assistance Program Hotline at 1-800-SBAP-HLP (1-800-722-7457).

CITATION WARNING NOTICE

CITATION WARNING NOTICE NUMBER: WRN12-0013

Pursuant to Chapter 27 of the Broward County Code of Ordinances ("Code" or "BCC"), the Environmental Protection and Growth Management Department (Department) has the authority and duty to control and regulate activities and facilities which adversely affect the air, water, soil and other natural resources of Broward County.

The undersigned certifies that he/she has just grounds to believe that on or about January 16, 2011, 1000 hours, at the location below, the following Respondent(s) violated the sections of the Broward County Code identified in each count:

Location: 3000 STATE ROAD 84
Fort Lauderdale, FL 33312

COUNT 1: Respondent: Vertical Yacht Club Boating Center

Violated Section 27-175(a), BCC, which states:

"Unless otherwise authorized by this article, no owner or operator shall construct or operate any source of air pollution, including parking facility (ies), except in accordance with a valid air quality license, permit, or parking facility (ies) license, and all general and specific conditions contained therein, including any other requirements under federal, state or local regulations."

By: Owner/operator failed to renew Air General Permit (Airs ID 0112681) for surface coating operation as required by Florida Administrative Code 62-210.300 (4) (c).

Corrective Action:

Owner/operator must submit a complete Air General Permit renewal notification and \$100.00 renewal fee to the Florida Department of Environmental Protection, Receipts, Post Office Box 3070, Tallahassee, Florida 32315-3070 within 30 days of receipt of this notice.

Correct within 30 day(s) of service of this notice.

Accordingly, the Respondent(s) is hereby advised to correct and respond to the aforesaid allegation(s) within the time period identified in each count above, or by advising the Department of any circumstances which it believes make this allegation inapplicable.

Failure to respond to this Citation Warning may result in the issuance of a Citation. The maximum civil penalty which may be levied pursuant to a Citation shall not exceed \$500.00 per violation.
