CONCRETE BATCHING PLANT
AIR GENERAL PERMIT REGISTRATION FORM Bureau of Air Monitoring & Mobile Sources

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

0150042-005

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
0150042-005-AG
- No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Preferred Materials, Inc.

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Punta Gorda Acline Road Ready Mix Plant

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 3333 Acline Road

City: Punta Gorda

County: Charlotte

Zip Code: 33950

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Type of Facility

Check one:

Stationary Facility

Relocatable Facility

Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions

Check all precautions to be used for the management of roads, parking areas, stock piles and yards:

Pave Roads

Pave Parking Areas

Pave Yards

Maintain Roads/Parking/Yards

Use Water Application

Use Dust Suppressant

Remove Particulate Matter

Reduce Stock Pile Height

Install Wind Breaks

Check all precautions to be used for the management of drop points to trucks:

Spray Bar

Chute

Enclosure

Partial enclosure

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Water will be used as a dust suppressant when necessary. The yards will be maintained to avoid fugitive emissions.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This application is to reflect a change in the central dust collection system.

The facility consists of an office building, parking area, various aggregate piles and a concrete batch plant with two silos to store the materials used in the process of making concrete, a mixer/batcher and truck load out area.

Materials used in the manufacture of concrete will be pneumatically transferred from tanker trucks to storage silos. Emissions from the transfer of materials will be controlled by a central dust collector. The emissions from the weigh hopper are controlled by a baghouse.

The following emission points will be in use:

725 bbl Cement Silo
530 bbl Flyash Silo
Truck Load out

**INCORRECT DATA - SEE ATTACHED
E-MAIL DATED 06/29/11, 12:55 PM AS
AN ADDENDUM TO THIS FORM.**

The above emission points will be controlled by a C & W Manufacturing CP-1200 dust collection system.

Weigh Hopper

Emissions from the weigh hopper are controlled by a Stephens SV 20.

To: Dibble, Dickson
Subject: Preferred Materials, Inc. Acline Road Plant ID 0150042

Good Afternoon Dick,

In response to our telephone conversation this morning, I called Preferred Materials, Inc. to verify the size of the silos at the above referenced facility. Richard Hire with Preferred Materials, Inc., previously with Schwab Ready Mix, confirmed the Cement Silo is 800 bbls and the Flyash Silo is 600 bbls. He has the original manual from 1988 that came with the plant which included the silo information.

If you have any questions, please feel free to call me at 863.467.0555 or email me at karlington@arlingtonenvironmental.com.

Thank you,

Kaye Arlington

Re: Preferred Materials, Inc.
Payment No. 1093066 June 13, 2011

To Whom It May Concern:

Enclosed is Check Number 5165 for \$100.00 to supplement the above referenced payment for Preferred Materials, Inc. The check for that payment was \$100.00 and should have been \$200.00. The enclosed check should satisfy the permit fee for the previous Air General Permit Registration.

If you have any questions, please feel free to call me at 863/467-0555 or email me at karlington@arlingtonenvironmental.com.

Sincerely,

Kaye Arlington
