

**NONMETALLIC MINERAL PROCESSING PLANTS (CRUSHERS)  
AIR GENERAL PERMIT REGISTRATION FORM**

**Part II. Notification to Permitting Office**

(Detach and submit to appropriate permitting office; keep copy onsite)

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. (\$100 as of the effective date of this form)

**0170007-006**

**Registration Type**

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

**Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only**

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): \_\_\_\_\_
- No air operation permits currently exist for this facility.

**General Facility Information**

**Facility Owner/Company Name** (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)  
CRYSTAL RIVER QUARRIES, INC. (Note: April 2011 revision for replacement of one conveyor belt.)

**Site Name** (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)  
RED LEVEL CRUSHING (DEP Facility ID 0170007)

**Facility Location** (Provide the physical location of the facility, not necessarily the mailing address.)  
Street Address: 7040 NORTH SUNCOAST BOULEVARD  
City: CRYSTAL RIVER County: CITRUS Zip Code: 34428-6726

**Facility Start-Up Date** (Estimated start-up date of proposed **new** facility.)(N/A for existing facility)

**Type of Facility**

Check one:

**Stationary Facility**

**Relocatable Facility**

**Type(s) of Precautions Used to Prevent Unconfined Emissions**

Check all that apply for the management of roads, parking areas, stock piles and yards:

**Maintain Roads/Parking/Yards**

**Use Water Application**

**Use Dust Suppressant**

**Remove Particulate Matter**

**Reduce Stock Pile Height**

**Install Wind Breaks**

Check the location of spray bars at the nonmetallic mineral processing plant:

**Feeders**

**Entrance to "Crusher"**

**Exit of "Crusher"**

**Classifier Screens**

**Conveyor Drop Points**

**Description of Reasonable Precautions**

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

**Application of water, chemicals or other dust suppressants as necessary to unpaved roads, yards, open stockpiles and similar activities.**

**Removal of particulate matter as necessary from paved roads and other paved areas under the control of the owner or operator of the facility to prevent reentrainment, and as necessary from buildings or work areas to prevent particulate matter from becoming airborne.**

### Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

NOTES: The 5-year renewal of the permit, now Permit No. 0170007-05-AG, was effective on February 6, 2011, expiring February 6, 2016.

This April 2011 revision is for replacement of one conveyor belt - the 18" exit conveyor belt from the hammermill/pulverizer in EU 003 will be replaced with a 24" exit conveyor belt - as indicated below. This is for better operation and not to increase capacity.

After this revision, the Red Level Crushing facility will include:

EU 001 - Primary Crusher:

A 250 ton/hour (normally actual 80 ton/hour) Lippman Engineering Works, Inc., Model T4036 crusher to crush wet quarried raw moist dolomite limerock. Material being crushed has 9 - 12 % moisture content.

EU 003 - Hammermill/Pulverizer:

A Lippman Engineering Works, Inc., Model 32x36 Hammermill/Pulverizer with normal actual throughput of 80 tons per hour of raw, crushed, dry dolomite limerock.

Although previously powered by diesel engine-driven electric generator, both EU 001 and EU 003 are now electrically powered from the grid.

From the primary crusher, a 36" conveyor belt transports material to a feed bin which feeds the hammermill/pulverizer. From the pulverizer, a 24" exit conveyor belt (previously 18") leads to a 30" flat conveyor belt, which leads to a 36" radial stacker conveyor.

In 2005, the facility decommissioned, and therefore has since not operated and not will operate, EU 002 which was a Barber Greene rotary drum limestone dryer which was fired with No. 6 fuel oil.

The DEP-Southwest District (SWD) provided the list of emission points below for VE testing. (DEP-SWD noted that since the 2006 GP Notification Form indicated both EU 001 and EU 003 are subject to 40 CFR 60, Subpart OOO, annual VE testing is required.)

- 1) Primary Crusher
- 2) Crusher exit conveyor drop point
- 3) Pulverizer Feed Bin
- 4) Pulverizer
- 5) Pulverizer Exit Conveyor Drop Point
- 6) Conveyor to Radial Stacker
- 7) Radial Stacker Conveyor Drop Point

Re: Air General Permit Revision Re-Registration for Nonmetallic Mineral Processing (NMMP)  
Current Permit No. 0170007-005-AG; Effective: 02/06/2011  
Facility Location: Crystal River Quarries, Inc. – Red Level Crushing  
7040 North Suncoast Boulevard, Crystal River, FL 34428

Ladies and Gentlemen:

On behalf of Crystal River Quarries, Inc., Southern Environmental Sciences, Inc. (SES) is pleased to submit the enclosed re-registration form for the above referenced existing, previously permitted facility. Also enclosed is the \$100.00 fee check.

This is for replacement of one conveyor belt, for better operation and not to increase capacity.

If you have any questions concerning the permit application please contact me at office phone (813) 752-5014 or email at: [lrobinson@sesfla.com](mailto:lrobinson@sesfla.com).

Sincerely,

SOUTHERN ENVIRONMENTAL

Good morning Lynn!

I just received the subject item facility's Nonmetallic Mineral Processing Plant AGP Registration Form (see attached file) for review and processing as a change of equipment renewal.

This is to advise you that our Finance and Accounting Division (F&A) has indicated that the processing fee (check) for \$100.00 was not included with the packet and therefore we cannot consider the form as complete until it is received.

Since it was not included with the submitted packet you may submit, or advise your client to submit a check payable to FDEP in the amount of \$100.00 to the following address. If only a check is received by F&A, they will not have a point of reference and will not know what to do with it, except to return it from whence it came.

**TALLAHASSEE, FLORIDA 32399-2400**

If you have any questions, comments, or concerns please e-mail or call.

Thank you for your attention to this matter.

Have a great day!

Sincerely yours,

*Dick*
