**REINFORCED POLYESTER RESIN OPERATIONS
AIR GENERAL PERMIT REGISTRATION FORM**

Bureau of Air Monitoring
& Mobile Sources

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

0210103-002

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
- No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Energenics Corporation

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 1470 Don Street

City: Naples

County: Collier

Zip Code: 34104-3375

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)

1988

Owner/Authorized Representative

<u>Name and Position Title</u> (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.) Print Name and Title: John T. Hutterly, CEO

Owner/Authorized Representative Statement

<p>This statement must be signed and dated by the person named above as owner or authorized representative</p> <p><i>I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.</i></p> <p><i>I will promptly notify the Department of any changes to the information contained in this registration form.</i></p> <p> Signature</p> <p>08/30/2010 Date</p>	
--	--

Material Usage Rates

If this is an **initial registration** for a reinforced polyester resin operation, provide an estimate of the total quantity, in pounds, of styrene-containing materials (resin and gelcoat) expected to be used over a 12-month period. Note: the general permit limits the usage of such material to 76,000 pounds (38 tons) in any consecutive 12 months.

If this is a **re-registration** for a reinforced polyester resin operation, provide the highest 12-month total quantity, in pounds, of styrene-containing materials (resin and gelcoat) used in the last five years. Indicate the 12-month period over which this usage occurred.

29,023 pounds used in year 2006

Description of Facility

Below, or as an attachment to this form, provide a description of the reinforced polyester resin operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Fiberglass used to produce industrial laundry filtration equipment.

Re: Air General Permit Registration Renewal for Facility # 0210103;
Energenics Corp dba Energenics-DonStFacilityNaples

Dear Mr. Dibble:

Please review the following and upon approval, attach this letter as an addendum to the above referenced renewal application.

Description of Facility:

- Energenics Corporation purchases fire retardant type resin, gel coat, and Hybon glass string from a third party vendor to fabricate large filter housings for our products to ship to our customers who are commercial laundry facilities. We house the production process in a separate building from our assembly production and offices. The building consists of 2 bays and small storage area that are divided and do not have access to each other except through the door openings in the front of the building. The bays have garage door openings and the storage area has a "man" door opening. During the application process, the bay doors are open and industrial fans are used for proper ventilation.
- For the production, Energenics uses Magnum Venus's gel spray system (model: F-FIT-G-WM-APS-20-R) with gel gun (model: ATG-FIT) and resin and glass chopper systems (model: F-FIT-C-WM-APS-6-R) with chopper gun ((model: ATC-FIT). The fiberglass team then sprays the gel and resin/chop on pre-made molds.

Respectfully Submitted,

John T. Hutterly
CEO

RE: Expiring AGP #0210103-001-AG

Dear Ms. Ajhar:

Enclosed please find a completed Reinforced Polyester Resin Operations Air General Permit Registration Form pursuant to the Florida Department of Environmental Protection Rule 62-210.310 or 62-213-300, Florida Administrative Code which states our current permit is due to expire on 10-20-2010. Also enclosed is a check for \$100.00 for the fee associated with the renewal.

Sincerely,

John T. Hutterly
CEO

Subject: Air General Permit Registration Renewal for Facility# 0210103;EnergenicsCorporationdbaEnergenics-DonStFacilityNaples

Good morning Mr. Hutterly,

I am in receipt of the subject item Reinforced Polyester Resin Operations Air General Permit Registration Form (see attached pdf file), which you have submitted for the purpose of renewal of your entitlement to operate.

There are two purposes for my e-mail.

SEVEN (7)

1. On page ~~ten (10)~~ of the form, under the block heading "Description of Facility", the following information is requested:

"Below, or as an attachment to this form, provide a description of the reinforced polyester resin operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used."

The response, as provided on your form, "*Fiberglass used to produce industrial laundry filtration equipment.*", did not adequately describe your reinforced polyester resin operation. In order to demonstrate eligibility for this air general permit, 1) a short description of the process, and 2) equipment identification (e.g. – use of chopper guns, hand lay-up, mold, use of gel-coat, spray booth, filter systems, etc.) would be in order and would provide me the opportunity to continue and complete the review for renewal of your entitlement.

You, or your representative, may respond via e-mail and I will simply attach your response as an addendum to your current registration form.

2. When renewing entitlements in the future, to insure a timely receipt of forms and fees, and depending upon your choice of delivery, you should submit your renewals to one of the following addresses:

For overnight delivery (via UPS, FedEx, DHL, etc):

FDEP-RECEIPTS
Attn: Dick Dibble
3800 Commonwealth Boulevard
Tallahassee, Florida 32399

For US Mail (USPS):

FDEP-RECEIPTS
Attn: Dick Dibble
Post Office Box 3070
Tallahassee, Florida 32315-3070

Thank you for your prompt attention to item #1, and if you have any questions, comments or concerns please e-mail or call.

Have a great day!

Sincerely yours,

Dickson E. Dibble
