**PRINTING OPERATIONS
AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

0210115-001

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
- No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Collier County Publishing LLC, DBA Naples Daily News

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Naples News Media Group

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 1100 Immokalee Road

City: Naples

County: Collier

Zip Code: 34110

Facility Start-Up Date (Estimated start-up date of proposed **new** facility.)(N/A for existing facility)
July 2009

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Print Name and Title: Tom Sewall, Director of Operations

Owner/Authorized Representative Mailing Address

Organization/Firm: Naples News Media Group

Street Address: 1100 Immokalee Road

City: Naples

County: Collier

Zip Code: 34110

Owner/Authorized Representative Telephone Numbers

Telephone: (239) 263-4869

Fax: (239) 263-4817

Cell phone (optional):

Facility Contact (If different from Owner/Authorized Representative)

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)

Print Name and Title: Robert Caton, Technical Service Manager

Facility Contact Mailing Address

Organization/Firm: Naples News Media Group

Street Address: 1100 Immokalee Road

City: Naples

County: Collier

Zip Code: 34110

Facility Contact Telephone Numbers

Telephone: (239) 263-4883

Fax: (239) 435-3464

Cell phone (optional):

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Compliance Assurance - Initial Registration (Not Required for Re-Registration)

Below, or as an attachment to this form, provide the method (mass balance or material usage rates) expected to be used to demonstrate compliance with Rule 62-210.310(4)(f)2., F.A.C. Provide the estimated amount of materials containing hazardous air pollutants and solvent-containing materials expected to be used over a 12-month period. Mass balance will be utilized as the method to demonstrate compliance with Rule 62-210.310(4)(f)2., F.A.C. Attached is the calculation spreadsheet detailing the estimated amounts of materials to be used over a 12-month period; volatile organic compound (VOC) content; and emissions of VOC. The chemicals projected to be used at the facility contain no HAP.

Compliance Determination - Re-Registration (Not Required for Initial Registration)

Below, or as an attachment to this form, provide the highest 12-month total quantity of materials containing hazardous air pollutants and the highest 12-month total quantity of solvent-containing materials used in the last five years to show compliance with sub-subparagraph 62-210.310(4)(f)2.b., F.A.C. (material usage rates) or provide all calculations to show compliance with sub-subparagraph 62-210.310(4)(f)2.a., F.A.C. (mass balance).

Description of Facility

Below, or as an attachment to this form, provide a description of the printing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Information should include a description of the number and types of printing processes, presses and ink systems being used at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Naples News Media Group is a newspaper publisher which will construct and operate a printing facility located at 1100 Immokalee Road, Naples, Florida. The operation is typical for a newspaper publisher and consists of pre-press and printing operations.

The printing process begins with images and text being transferred from computer to film. The film is then processed in an image setter, and the images and text are transferred from the film to aluminum printing plates. This constitutes the pre-press operations. There are virtually no emissions associated with the use of pre-press chemicals (see attached spreadsheet).

From pre-press, plates are transferred to the Wifag Evolution 371 newspaper printing press, which is a non-heatset offset press. The press consists of six (6) ink towers and two (2) folders. It has a web size of 44 x 20 inches and is capable of printing 90,000 newspapers per hour. The typical chemicals used to print newspapers consist of blanket wash, fountain solution, and various inks (see attached spreadsheet) No additional chemicals will be used at the facility except for insignificant usage of janitorial and maintenance supplies.

MATERIAL USAGE AND EMISSIONS
COLLIER COUNTY PUBLISHING LLC, DBA NAPLES DAILY NEWS
NAPLES NEWS MEDIA GROUP
NAPLES, FLORIDA

<u>Pre-Press Chemicals</u>	<u>Usage Amount (gal/yr)</u>	<u>VOC Content (wt%)</u>	<u>VOC Emissions (tpy)</u>
Photopolymer Developer Concentrate	7,000	0%	0
