Dear Mr. Porter,

This is to confirm closure of the subject item facility's air general permit registration per your request letter of March 16, 2009 (copy attached as a pdf file). See the Facility Screen print below.

Also for your records the most recent Project Code for this facility was 004-AG rather than the 003-AG indicated in your letter and the facility Owner/Company name was still shown as RINKER MATERIALS CORP. An ownership change was never executed for this facility since the status was changed to INACTIVE in July of 2008 in the wake of a confirming inspection by Rick Garcia, while still under the ownership of RINKER.

Immediately below is the complete content of the text which I have included in the comment section of the Facility Screen capture below for AIRS ID# 0250309, RINKER MATERIALS CORP.

03/23/09-Facility PERMANENTLY CLOSED, CCB Plant demolished, site sold to FLDOT per CEMEX ltr (J.Porter) dated 03/16/09 requesting closure of this AGP.

RE: Permanent closure of the Cemex / LeJeune ready-mix concrete batching facility (Permit No. 0250309-003-AG).

Dear Sirs:

This letter should serve as notification that CEMEX Construction Materials Florida, L.L.C. permanently closed our LeJeune ready-mix facility in May of 2008. We request that the general air permit for this facility also be closed. The plant, which was located at 2201 N. W. 38th Court, in Miami, Florida, was demolished following the property's purchase by the Florida Department of Transportation.

If you have any questions concerning this former operation, please contact us at (561) 820-8415.

Sincerely,

Jeffrey R. Porter
Environmental Mgr.
