Mr. Rudy de La Mora, President
Job Mix, Incorporated Company
7301 Northwest 47th Street
Miami, Florida 33166

Dear Mr. La Mora:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your **Concrete Batching Plant** facility was received on November 6, 2009. We have assigned ARMS No. 0250359-002 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

If you have or expect any administrative changes in your mailing address, location address, responsible official, or telephone number, please notify the Department at the following address:

Air General Permits Office
Bureau of Air Monitoring and Mobile Sources MS 5510
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, FL 32399-2400

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

At our facility we take serious precautions to not contaminate the environment.

We have provided a sprinkler system throughout the point of loading that keeps all the dust down.

Our bag house and filter systems are checked periodically to ensure compliance.

Filters are changed twice a year.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Introduction

Job Mix Concrete, Inc., Facility ID 0250359, operates a concrete batch plant located at 7307 N.W. 47th Street in Miami, Florida.

On Thursday, September 18, 2008, a visible emission test (EPA Method 9) was performed on the outlet vent servicing the west cement storage silo. The east silo is not in use. The tanker pumped 25.96 tons. of cement into the West Silo.

The test was conducted in accordance with the requirements of Rule 62-296.414(3)(a)7 F.A.C and the permit conditions as specified by the Florida Department of Environmental Protection.

According to the conditions of the permit, the allowable emission shall be controlled to the extent necessary to limit visible emissions to five (5) percent opacity.

The results of the test verify compliance with Rule 62-296 FAC, and the applicable permit conditions.
