As we (Leo Smart + myself) entered the facility, we smelled a "sweet" odor that we thought was perc. We conducted the inspection and used the halogen leak detector. ~~that~~ After calibrating the leak detector outside, we entered the facility and the detector signaled immediately. We repeated this test three more times and obtained the same results. Instructed R.O. (Mr. Flores) to have leak repaired pursuant to DEP Rule 62-213.300, F.A.C.. Mr. Flores called a Dry Clean USA representative in my presence and scheduled a maintenance appointment. R.O. commented that the air conditioning system needed cleaning and the air was not circulating sufficiently.
