Marta,

This is just a friendly reminder regarding our telephone conversation of 4/30/09 and your e-mail request below, dated 04/27/09, asking that the subject item facility be updated in ARMS accordingly. During our conversation I had asked that verification be made as to whether or not 1) the PERC Dry Cleaning machine had been disconnected and the PERC removed from the site, or 2) both the Dry Cleaning machine and the PERC had been removed from the site prior to my changing the facility to an INACTIVE status.

You had mentioned that you did not inspect the facility, but my notes reminded me that you were going to get back with me and let me know. Since I have not heard back from you I have not yet changed the facility to INACTIVE.

Can you give me an update?

Thank you and have a great day!
