

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Sureau of All Monitoring. Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type 05/05/10-00			
Check one:			
INITIAL REGISTRATION - Notification of intent to: Construct and operate a proposed new facility. Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).			
RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to: Continue operating the facility after expiration of the current term of air general permit use. Continue operating the facility after a change of ownership. Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.			
Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only			
If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.			
All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):			
☑ No air operation permits currently exist for this facility.			
General Facility Information			
Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.) ADESA, Inc.			
Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.) ADESA Jacksonville			
Facility Location (Provide the physical location of the facility, not necessarily the mailing address.) Street Address: 11700 New Kings Road			
City:Jacksonville, FL County:Duval Zip Code:32219-1713

DEP Form No. 62-210.920(1)(c) Effective: January 10, 2007

Description of Facility

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

ADESA Jacksonville operates one-two car fully enclosed Future Cure semi down draft spray paint booth ventilated at negative pressure. The facility has no primer/preparation stations and the spray paint booth is equipped with Air Flow Andreae PAF-2020 Pleated filters which have a average removal efficiency of 98.17 percent. Spray gun applications inside the paint booth utilize high volume, low pressure (HVLP) technology. HVLP spray guns utilized in the spray booth applications consist of a Satajet Reduced Pressure Digital 2000 (transfer efficiency of 64 percent) and a Anest Iwata LPH 400 spray gun (transfer efficiency > 65 percent). Spray guns are cleaned utilzing a Herkules Paint Gun Washer and Recycler. The facility has one sublet painter who has been trained and certified on spray gun equipment selection, spray techniques, maintenance, and environmental compliance.

The facility shall not emit nor has the potential to emit 10 tons per year or more of any hazardous air pollutant, 25 tons per year or more of any combination of hazardous air pollutants, or 100 tons per year or more of any other regulated air pollutant. In addition, the total quantity of Volatile Organic Compounds in all coatings used shall not exceed forty-four (44) pounds per day. ADESA Jacksonville shall maintain paint-purchase records, record any equipment changes and/or alterations that might affect facility operations.
