**SURFACE COATING OPERATIONS
AIR GENERAL PERMIT REGISTRATION FORM 26 2011**

Part II. Notification to Permitting Office **DIVISION OF AIR
RESOURCE MANAGEMENT**
(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
 Continue operating the facility after a change of ownership.
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

03/0576-001**Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only**

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
 No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Watco Companies, LLC

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Jacksonville Repair Facility

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 7305 Old King Road N.

City: Jacksonville

County: Duval

Zip Code: 32219-3731

Facility Start-Up Date (Estimated start-up date of proposed new facility.) (N/A for existing facility)

N/A

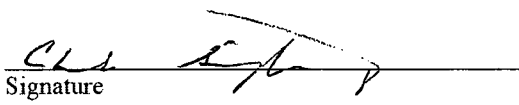

Owner/Authorized Representative

<u>Name and Position Title</u> (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.) Print Name and Title: Charles Sigley, Plant Manager		
<u>Owner/Authorized Representative Mailing Address</u> Organization/Firm: Watco Companies, LLC Street Address: 7305 Old King Road N. City: Jacksonville County: Duval Zip Code: 32219 - 3731		
<u>Owner/Authorized Representative Telephone Numbers</u> Telephone: (904) 786-1700 Fax: (904) 783-6843 Cell phone (optional):		

Facility Contact (If different from Owner/Authorized Representative)

<u>Name and Position Title</u> (Plant manager or person to be contacted regarding day-to-day operations at the facility.) Print Name and Title: Same as Owner/Authorized Representative		
<u>Facility Contact Mailing Address</u> Organization/Firm: Street Address: City: County: Zip Code:		
<u>Facility Contact Telephone Numbers</u> Telephone: Fax: Cell phone (optional):		

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative	
<i>I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.</i>	
<i>I will promptly notify the Department of any changes to the information contained in this registration form.</i>	
Signature 	Date 08-24-2011

Material Usage Rates

If this is an **initial registration** for a surface coating operation, provide an estimate of the average quantity of volatile organic compounds in all coatings (solvents and thinners) expected to be used on a daily basis.

Please see Description of Facility below.

If this is a **re-registration** for an existing surface coating operation, provide the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) used in the last five years. Indicate the month and year during which this usage occurred.

Description of Facility

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Watco Mechanical Services (Watco) operates a railcar repair facility in Jacksonville, Duval County, Florida. Railcar repair includes, among other operations, the surface coating of railcar exteriors. The facility operates a single paint booth consisting of two spray guns that each spray a maximum of twelve (12) gallons per hour. The facility uses a large number of coatings according to customer specifications, but the average coating volatile organic compound (VOC) density is 2.64 pounds VOC per gallon of coating. The average thinning/cleaning solvent VOC density is 6.49 pounds VOC per gallon of solvent. The facility's operating schedule varies according to customer demand; however, Watco will maintain monthly usage records to ensure compliance with Rule 62-210.310(4)(c)(2)(a), which limits total quantity of VOC emissions to 44 pounds per day averaged monthly. The records will also demonstrate Watco's compliance with the rule's limits on Hazardous Air Pollutants (HAPs): less than 10 tpy for any single HAP and less than 25 tpy for any combination of HAPs.
