**SURFACE COATING OPERATIONS
AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET**

APR 05 2012
DIVISION OF AIR
RESOURCE MANAGEMENT

Facility Identification Number (If known)

_____ **0310578-001**

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
 Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)
 Operates an existing facility not currently permitted or using an air general permit.

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
 Continue operating the facility after a change of ownership.
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

Other Contact/Representative Representative Mailing Address

Organization/Firm: Leah Doak
Street Address: 1324 11th Ave.
City: Deland, FL County: Volusia Zip Code: 32724

Material Usage Rates

If this is an **initial registration** for a surface coating operation, provide an estimate of the average quantity of volatile organic compounds in all coatings (solvents and thinners) expected to be used on a daily basis.

none

If this is a **re-registration** for an existing surface coating operation, provide the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) used in the last five years. Indicate the month and year during which this usage occurred.

Description of Facility

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Lind Enterprises, Inc. is a mobile auto body paint repair business where small sections of a vehicle are painted on site at various car dealership locations. Paint strippers containing methylene chloride (MeCl) are never used. The materials used for paint work and clean up do not contain any of the regulated five HAPs. All paint guns used are HVLP guns. We are applying for the Air General Permit so as to go above and beyond what is required for our business to continue operating without interruption anywhere in the state of Florida.

**NOTE: REPRESENTATIVE WAS ADVISED THAT WE DID NOT HAVE A MOBILE SC AGP, BUT THEY INSISTED THAT THEY WANTED TO GO ABOVE & BEYOND*

Helpful Definitions

- "Coating" - The application of a protective, decorative, or functional film to a surface.
- "Department" or "DEP" - The State of Florida Department of Environmental Protection.
- "Emissions Unit" - Any part or activity of a facility that emits or has the potential to emit any air pollutant.
- "Facility" - All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).
- "Owner" or "Operator" - Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.
