**Material Usage Rates Initial Registration**

If this is an **initial registration** for a surface coating operation, provide an estimate of the average quantity of volatile organic compounds in all coatings (solvents and thinners) expected to be used on a daily basis.

N/A

**Material Usage Rates Re-registration\***

If this is a **re-registration** please provide the following information:

- 1) In the last five (5) years, what were the **month** and the **year** in which highest monthly usage of volatile organic compounds (VOC) containing materials occurred at your facility?  
Month September Year 2010
- 2) For that **highest month**, calculate the monthly average of the VOC's in all materials (coatings, thinners & solvents), expressed in pounds (lbs.), using the following equation.

*Equation:*

$$\frac{754.20 \text{ VOC lbs/mo}}{30 \text{ days/mo}} = \frac{25.14 \text{ VOC lbs/day}}$$

**\*Note:** The Surface Coating Operations Air General Permit Registration limits the monthly average of VOC's in all materials not to exceed forty-four (44) pounds per day averaged monthly.

**Description of Facility**

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Automotive paint and body facility with 3 paint booths. All three paint booths are equipped with filters.

**Helpful Definitions**

**"Coating"** - The application of a protective, decorative, or functional film to a surface.

**"Department"** or **"DEP"** - The State of Florida Department of Environmental Protection.

**"Emissions Unit"** - Any part or activity of a facility that emits or has the potential to emit any air pollutant.

**"Facility"** - All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).

**"Owner"** or **"Operator"** - Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.

## SURFACE COATING OPERATIONS

### Air General Permit Example Registration Worksheet

The Department of Environmental Protection (“Department” or “DEP”) has established an “air general permit” at Florida Administrative Code (“F.A.C.”) Rule 62-210.310(4)(c) for surface coating. An air general permit is an authorization by rule to construct or operate a specific type of air pollutant emitting facility. Use of such authorization by any individual facility does not require action by the Department. The terms and conditions of the air general permit are set forth in the rule, rather than in a separately issued air construction or air operation permit.

If you are the owner or operator of an eligible facility comprising one or more surface coating operations you may register to use the air general permit at Rule 62-210.310(4)(c), F.A.C., by following the general procedures given at subsections 62-210.310(2) and 62-210.310 (3), F.A.C. To register, use the Department’s electronic registration system (currently under development) or submit all the information specified in the above rules to either of the following addresses, along with the air general permit registration processing fee (\$100.00), payable to FDEP.

If you properly register to use an air general permit, and are not denied use of the air general permit by the Department, you are authorized to construct and operate the facility in accordance with the general terms and conditions of Rule 62-210.310, F.A.C., and the specific terms and conditions of Rule 62-210.310(4)(c), F.A.C. Your facility may vary, so be sure your registration describes the operations at your facility in sufficient detail to demonstrate the facility’s eligibility for use of the air general permit and to provide a basis for tracking any future equipment or process changes. Your registration should describe all air pollutant-emitting processes and equipment at the facility, and it should identify any air pollution control measures or equipment used.

The rules do not require any specific format for the registration. This worksheet, however, has been designed to assist owners and operators. Using it as a template for a general permit registration will help ensure that all necessary information is submitted.

Additional information can be found on the Department’s air general permit program website ([http://www.floridadep.org/air/emission/air\\_gp.htm](http://www.floridadep.org/air/emission/air_gp.htm)) or by calling the Small Business Environmental Assistance Program Hotline at 1-800-SBAP-HLP (1-800-722-7457).
