Mr. Jeffrey A. Smith
South Florida Water Management District
Pump Station S-131
3301 Gun Club Road, Department 5432
West Palm Beach, Florida 33406

Dear Mr. Smith:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on December 8, 2008. We have assigned ARMS No. 0430019-001 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

RECIPROCATING INTERNAL COMBUSTION ENGINES
AIR GENERAL PERMIT REGISTRATION FORM

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

0430019-001

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
- No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

South Florida Water Management District

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Pump Station S-131

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: East of County Road 721. Access road 1/2 mile east of SR 78.

City:North of Lakeport

County:Glades

Zip Code:33471

Facility Start-Up Date (Estimated start-up date of proposed **new** facility.)(N/A for existing facility)

Pump Station used for flood control. Station began operation approximately November 29, 1963.

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Print Name and Title: Alberto J. Arrieta, Department Director, Field Operations North, Operations and Maintenance Resource Area

Owner/Authorized Representative Mailing Address

Organization/Firm: South Florida Water Management District

Street Address: 3301 Gun Club Road, Dept. 5300

City: West Palm Beach

County: Palm Beach

Zip Code: 33406

Owner/Authorized Representative Telephone Numbers

Telephone: (561) 682-2867

Fax: (561) 681-6232

Cell phone (optional):

Facility Contact (If different from Owner/Authorized Representative)

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)

Print Name and Title: Jeffrey A. Smith, Lead Environmental Scientist

Facility Contact Mailing Address

Organization/Firm: South Florida Water Management District

Street Address: 3301 Gun Club Road, Dept. 5432

City: West Palm Beach

County: Palm Beach

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Joel Arrieta

Date

Fuel Consumption

If this is an **initial registration** for reciprocating internal combustion engine operations, provide an estimate of the total amount of fuel expected to be consumed over a 12-month period. Note: the general permit limits fuel consumption by all reciprocating internal combustion engines at the facility to 20,000 gallons per year of gasoline, 250,000 gallons per year of diesel fuel, 1.15 million gallons per year of propane, 40 million standard cubic feet per year of natural gas, or an equivalent prorated amount if multiple fuels are used

Pumping operations are based on environmental conditions. Average annual fuel consumption from January 2002 through October 2008 is approximately 9,100 gallons.

If this is a **re-registration** for reciprocating internal combustion engine operations, provide the highest 12-month total fuel consumption amount, in appropriate units, for the last five years. Indicate the 12-month period over which this fuel consumption occurred.

N/A

Description of Facility

Below, or as an attachment to this form, provide a description of the reciprocating internal combustion engine operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The two existing Caterpillar 225 hp main engines are being replaced with two Caterpillar 385 hp engines. The increase in horsepower rating presents a potential for the station to exceed the 32,000 gallons of diesel fuel per year during a wet year. Station currently operates under the air permitting exemption pursuant to Rule 62-210.300(3)(a)(36)(d), F.A.C. The Specification Sheet for the new engines is attached. No add-on emission control equipment will be used. Station has two emergency back up generators.

FEATURES

Emissions

Meets Tier 3, Stage IIIA emission requirements. Tier 3 refers to EPA (U.S.) standards. Stage IIIA refers to European standards.

Worldwide Supplier Capability

Caterpillar
 - Casts engine blocks, heads, and cylinder liners.
 - Machines critical components
 - Assembles complete engine
 Ownership of these manufacturing processes enables Caterpillar to produce high quality, dependable product.
 Factory-designed systems built at Caterpillar ISO certified facilities.

Testing

Prototype testing on every model:
 - proves computer design
 - verifies system torsional stability
 - tests functionality on every model

Every Caterpillar engine is dynamometer tested under full load to ensure proper engine performance.

Full Range of Attachments

Wide range of bolt-on system expansion attachments, factory designed and tested.

Unmatched Product Support Offered Through Worldwide Caterpillar Dealer Network

More than 1,500 dealer outlets.
 Caterpillar factory-trained dealer technicians service every aspect of your industrial engine.
 99.7% of parts orders filled within 24 hours worldwide.
 Caterpillar parts and labor warranty.
 Preventive maintenance agreements available for repair before failure options.

Scheduled Oil Sampling program matches your oil sample against Caterpillar set standards to determine:

- internal engine component condition
- presence of unwanted fluids
- presence of combustion by-products

P.O. Box 3070
Tallahassee, FL 32315-3070

**Subject: Air General Permit Registration Forms
South Florida Water Management District
Pump Stations S-129 and S-131**

Enclosed please find Air General Permit Registration Forms (DEP Form No. 62-210.920(1)(b)) for the South Florida Water Management District (District) Pump Stations S-129 and S-131. These are initial Air General Permits for both stations. No air operation permits currently exist for these facilities. These stations have historically operated under a permitting exemption (Rule 62-210.300(3)(a)(36)(d), F.A.C.) due to their annual fuel oil consumption being less than 32,000 gallons.

The existing Caterpillar 220 bhp engines will be replaced with Caterpillar 385 bhp engines. As a result of the increase in horsepower rating, the annual fuel oil consumption during wet years will potentially exceed 32,000 gallons. The first engine at both stations is scheduled to be installed the beginning of February 2009. Enclosed are specification sheets for the Caterpillar C13 ACERT engines that will be installed in each pump station. Also enclosed are aerials indicating the pump station locations.

Please contact me at 561/682-2516 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey A. Smith".
