Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
 Continue operating the facility after a change of ownership.
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
0570047
 No air operation permits currently exist for this facility.

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility. Fugitive emissions will be controlled with the use of sprinklers and/or a water truck when necessary.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Florida Rock Industries, Inc. operates a concrete batch plant, that consists of 2 split silos, a truck load out, weigh hopper, office, parking area, maintenance area and various aggregate piles.

EU 001 East side of North Silo with silo mounted dust collector

EU-002 West Side of North Silo with silo mounted dust collector

EU-003 East side of South Silo with silo mounted dust collector

EU-004 West side of South Silo with silo mounted dust collector

This application is to replace the old baghouse on EU-005 with a new Griffin Environmental Model D-80.

EU-005 Weigh hopper and batching emissions will be controlled by a Griffin Environmental Model D-80 Clean Batch Dust Collection System. The design efficiency of the unit is 99.9%. This unit will replace the existing baghouse.
