SOURCE DESCRIPTION: Perc Dry Cleaner

CONTACT(S): Henry McNatt III

Today's visit was to conduct the annual inspection.
Both dry cleaning machines are the same ones noted in the last inspection.
The machines were very clean and well maintained. Both machines were in operation today. No odors or leaks were noticed.
Mr. McNatt's record keeping is in good shape. His perc purchase receipts and the rolling total indicated that 230 gallons of perc has been used over the last twelve months. And his repair log showed that the condenser coil from one of the machines was replaced in Oct, 1997.
There is a owners manual for both machines (two machines are identical) kept on site which includes a startup, shutdown and malfunction plan.
