Subject: Air permit for Seventh Ave. Properties

Good morning Mr. Dibble. This response is for AIRS IS# 0571255-004-AG per your E-mail dated April 14 and our phone conversation on April 17. Seventh Ave. properties has asked me to respond for them. There are two truck load out points. Nothing changed from the original data base. The manufactures name plates have worn badly on the dust collectors. We were able to get some information. Silo number one had a number M11.07.256.Es4 with a pin number 3-8511. Silo number two had a pin number of Y604005P. Silo number three was already indentified as having a CP 305. Hopefully this helps out. If you would like some more information please let me know.
