AIR GENERAL PERMIT REGISTRATION FORM

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy **DIVISION OF AIR RESOURCE MANAGEMENT**)

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- ☐ Construct and operate a proposed new facility.  
☐ Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- ☐ Continue operating the facility after expiration of the current term of air general permit use.  
☒ Continue operating the facility after a change of ownership.  
☐ Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

**Material Usage Rates**

If this is an **initial registration** for a surface coating operation, provide an estimate of the average quantity of volatile organic compounds in all coatings (solvents and thinners) expected to be used on a daily basis.

If this is a **re-registration** for an existing surface coating operation, provide the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) used in the last five years. Indicate the month and year during which this usage occurred.

August 2010 to July 2011 fuel consumption  
was 6,200 gallons diesel fuel.

**Description of Facility**

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This facility contains seven (7) Cummins model KTA50-G9 diesel engines which operate 1500kW emergency power generators. There are no additional air pollution control measures on the engines.

These are the only air pollutant-emitting processes and equipment at the facility.

**RE: Permit No. 0571268-002-AG  
9310 Florida Palm Drive, Tampa, FL 33619**

Dear Sirs,

Qwest Communications maintains a reciprocating internal combustion engine air general permit registration for the address shown above. The current air permit expires on 11/10/2011. Attached is the Reciprocating Internal Combustion Engine Air General Permit Registration Form to renew the permit, along with the \$100 registration fee.

Effective April 1, 2011 Qwest Communications was purchased by CenturyLink. As a result of this transaction the new owner name for this permit is "**Qwest Communications Company, LLC dba CenturyLink QCC.**"

If you have any questions concerning this matter, I can be reached at 914-686-7952.

Sincerely,

**\* ADDENDUM TO #0571268-003**

### Fuel Consumption

If this is an **initial registration** for reciprocating internal combustion engine operations, provide an estimate of the total amount of fuel expected to be consumed over a 12-month period. Note: the general permit limits fuel consumption by all reciprocating internal combustion engines at the facility to 20,000 gallons per year of gasoline, 250,000 gallons per year of diesel fuel, 1.15 million gallons per year of propane, 40 million standard cubic feet per year of natural gas, or an equivalent prorated amount if multiple fuels are used

If this is a **re-registration** for reciprocating internal combustion engine operations, provide the highest 12-month total fuel consumption amount, in appropriate units, for the last five years. Indicate the 12-month period over which this fuel consumption occurred.

August 2010 to July 2011 fuel consumption  
was 6,200 gallons diesel fuel.

### Description of Facility

Below, or as an attachment to this form, provide a description of the reciprocating internal combustion engine operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This facility contains seven Cummins model KTA50-G4 diesel engines which operate 1500kW emergency power generators. There are no additional air pollution control measures on the engines.

These are the only air pollutant-emitting processes and equipment at the facility.
