

FEA RECEIPT # 507106
MAR 19, 2010

CONCRETE BATCHING PLANT
AIR GENERAL PERMIT REGISTRATION FORM

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

RECEIVED
MAR 08 2010

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

DEP General Dist.

Registration Type

0694860-001

Check one:

INITIAL REGISTRATION - Notification of intent to:

☐ Construct and operate a proposed new facility.

☒ Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

☐ Continue operating the facility after expiration of the current term of air general permit use.

☐ Continue operating the facility after a change of ownership.

☐ Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

☒ All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

0690039

☐ No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

DEWITT EXCAVATING INC

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

- Pit 2 - Soil Cement Plant

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 14013 Tiny Horse Blvd

City: Clermont

County: Lake

Zip Code: 34711-8751

Facility Start-Up Date (Estimated start-up date of proposed new facility.) (N/A for existing facility)

N/A

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Print Name and Title: Theodore D DeWitt, President

Owner/Authorized Representative Mailing Address

Organization/Firm: DeWitt Excavating Inc

Street Address: 14463 W Colonial Dr

City: Winter Garden

County: Orange

Zip Code: 34727

Owner/Authorized Representative Telephone Numbers

Telephone: 407-656-1799

Fax: 407-656-0552

Cell phone (optional): —

Facility Contact (If different from Owner/Authorized Representative)

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)

Print Name and Title: Jim Natthass - Superintendent

Facility Contact Mailing Address

Organization/Firm: DEWITT EXCAVATING INC

Street Address: 14013 TINY MURSE BLVD

City: Clermont

County: Lake

Zip Code: 34711

Facility Contact Telephone Numbers

Telephone: 407-656-1799

Fax: 407-656-0552

Cell phone (optional): —

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Type of Facility

Check one:

☒ Stationary Facility

☐ Relocatable Facility

Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions

Check all precautions to be used for the management of roads, parking areas, stock piles and yards:

☒ Pave Roads

☐ Pave Parking Areas

☐ Pave Yards

☒ Maintain Roads/Parking/Yards

☒ Use Water Application

☐ Use Dust Suppressant

☐ Remove Particulate Matter

☐ Reduce Stock Pile Height

☐ Install Wind Breaks

Check all precautions to be used for the management of drop points to trucks:

☐ Spray Bar

☒ Chute

☐ Enclosure

☒ Partial enclosure

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Broom Sweeper

Water truck

Sprinkling Water Sprinkler System

Cat Water wagon with Water Cannon

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The soil cement concrete batching plant is used to make soil cement for road base material. Bulk Cement is mixed in with red clay and water and loaded into trucks and hauled to 'our' job sites. DeWitt only makes this product for our own job sites.

Dear Ms. Ann DeWitt Severns,

Thank you for your response to my request for further information in order to proceed with the entitlement process for your soil cement and crushing operations.

I am still at a gridlock however, in the entitlement process for your facilities, since each form asks to describe the applicable operations and processes unique to each facility in order to demonstrate the facility's eligibility for use of the air general permit.

Concrete Batching Plant

Below, or as an attachment to this form, provide a description of the **concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.**

Nonmetallic Mineral Processing Plant

Below, or as an attachment to this form, provide a description of the **nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.**

Please, I am in earnest trying to help you get through this process and the information is important in order to complete my review and this process.

Thank you for your time and consideration.

Sincerely,

Dickson E. Dibble

Subject: Air General Permit Registration Forms, CCB Plant Facility #0694860 & NMMP Plant Facility #0694861, 14013 Tiny Morse Blvd, Clermont, FL 34711-8751

Good morning Ms. Severns,

I hope that all is going well and I apologize for appearing to be a pest about acquiring the Page 10, Description of Facility information that was omitted from both of your registration forms, and which we discussed during our telephone conversation on Wednesday, April 14th, for both the concrete batching plant (soil cement) and the crusher unit(s) located at 14013 Tiny Morse Blvd. in Clermont.

The thirty (30) day processing & review period for these registrations will come to an end this weekend (the time clock is required by State Statute § and is unfortunately computer driven). It is important that I have the requested information today in order for these entitlements to be issued. Without the information your entitlement to operate will be denied and I would really don't want that to happen. If there is anything I can do to assist you, please, let me know.

Below is a re-cap of the type of information that is needed for Page 10 of each form.

- 1) **Describe the processes** for each facility. (In other words, what is it that DeWitt Excavating Inc will be doing with these facilities.)
- 2) **CRUSHER**
 - a) Manufacturer
 - b) Model #
 - c) S/N (if available)
 - d) Machine rated capacity in Tons per hour (T/hr)
 - e) Number of spray bars if any (for controlling fugitive dust emissions)
 - f) **Power source of the unit** (if an internal combustion engine will need the name of the manufacturer, model #, S/N, horsepower rating & type of fuel burned)
- 3) **CONCRETE BATCHING PLANT**
 - a) **Silos** (identify the silos) (e.g. - #1, #2, #3, or N, S, E, W, or by the capacity of the silo, or by the type of product contained in the silo, cement, flyash, slag, etc.)
 1. **Identify each baghouse** with each silo
 - a. Baghouse manufacturer
 - b. Model number
 - c. Filter area in sq. ft. if available, or type of filter (cartridge, bag or vent)
 - b) If you have a **Mixer/batcher** I need the type of dust control device(s), if any. (e.g. – dust collector, vent, spray ring, etc.)
 - c) If you have a **Truck load-out** – identify any pollution control measure, such as a spray ring, shroud, drop tube, etc.

For expediency and simplicity's sake, you may send your response via e-mail and I will add your e-mail as an addendum to the appropriate registration forms.

If you have any questions, comments, or concerns, please share them with me. I want to help you to get through this process in any way that I am able. I look forward to hearing from you soon.

Thank you and have a great day!

Sincerely yours,

Dickson E. Dibble
