AIR GENERAL PERMIT REGISTRATION FORM

MAR 08 2010

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

DEP Central Dist.

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:☐ Construct and operate a proposed new facility.☒ Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:☐ Continue operating the facility after expiration of the current term of air general permit use.☐ Continue operating the facility after a change of ownership.☐ Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

☒ All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):☐ No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

DEWITT Excavating Inc

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Plant - 2 - Crusher

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address:

City:

Clermont

County:

Walke

Zip Code:

34711-8951

Facility Start-Up Date (Estimated start-up date of proposed new facility.) (N/A for existing facility)

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Type of Facility

Check one:

☒ Stationary Facility

☐ Relocatable Facility

Type(s) of Precautions Used to Prevent Unconfined Emissions

Check all that apply for the management of roads, parking areas, stock piles and yards:

☒ Maintain Roads/Parking/Yards
☐ Remove Particulate Matter

☒ Use Water Application
☐ Reduce Stock Pile Height

☐ Use Dust Suppressant
☐ Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

☐ Feeders

☒ Entrance to "Crusher"

☒ Exit of "Crusher"

☐ Classifier Screens

☒ Conveyor Drop Points

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Use of Spray Bars
Misting Devices
Water Trucks
Broom Sweeper
Sprinkling System

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Thank you. We are getting very close. On your drawing, is that a screening operation southwest of the crusher? If so, I need to know the screen Make, Model, machine rated capacity in T/hr and number of decks, and I think that should do it!

Once again, I really appreciate your help on this!

Subject: Air General Permit Registration Forms, CCB Plant Facility #0694860 & NMMP Plant Facility #0694861, 14013 Tiny Morse Blvd, Clermont, FL 34711-8751

Good morning Ms. Severns,

I hope that all is going well and I apologize for appearing to be a pest about acquiring the Page 10, Description of Facility information that was omitted from both of your registration forms, and which we discussed during our telephone conversation on Wednesday, April 14th, for both the concrete batching plant (soil cement) and the crusher unit(s) located at 14013 Tiny Morse Blvd. in Clermont.

The thirty (30) day processing & review period for these registrations will come to an end this weekend (the time clock is required by State Statute § and is unfortunately computer driven). It is important that I have the requested information today in order for these entitlements to be issued. Without the information your entitlement to operate will be denied and I would really don't want that to happen. If there is anything I can do to assist you, please, let me know.

Below is a re-cap of the type of information that is needed for Page 10 of each form.

- 1) **Describe the processes** for each facility. (In other words, what is it that DeWitt Excavating Inc will be doing with these facilities.)
- 2) **CRUSHER**
 - a) Manufacturer
 - b) Model #
 - c) S/N (if available)
 - d) Machine rated capacity in Tons per hour (T/hr)
 - e) Number of spray bars if any (for controlling fugitive dust emissions)
 - f) **Power source of the unit** (if an internal combustion engine will need the name of the manufacturer, model #, S/N, horsepower rating & type of fuel burned)
- 3) **CONCRETE BATCHING PLANT**
 - a) **Silos** (identify the silos) (e.g. - #1, #2, #3, or N, S, E, W, or by the capacity of the silo, or by the type of product contained in the silo, cement, flyash, slag, etc.)
 1. **Identify each baghouse** with each silo
 - a. Baghouse manufacturer
 - b. Model number
 - c. Filter area in sq. ft. if available, or type of filter (cartridge, bag or vent)
 - b) If you have a **Mixer/batcher** I need the type of dust control device(s), if any. (e.g. – dust collector, vent, spray ring, etc.)
 - c) If you have a **Truck load-out** – identify any pollution control measure, such as a spray ring, shroud, drop tube, etc.

For expediency and simplicity's sake, you may send your response via e-mail and I will add your e-mail as an addendum to the appropriate registration forms.

If you have any questions, comments, or concerns, please share them with me. I want to help you to get through this process in any way that I am able. I look forward to hearing from you soon.

Thank you and have a great day!

Sincerely yours,

Dickson E. Dibble

Dear Ms. Ann DeWitt Severns,

Thank you for your response to my request for further information in order to proceed with the entitlement process for your soil cement and crushing operations.

I am still at a gridlock however, in the entitlement process for your facilities, since each form asks to describe the applicable operations and processes unique to each facility in order to demonstrate the facility's eligibility for use of the air general permit.

Concrete Batching Plant

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Nonmetallic Mineral Processing Plant

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Please, I am in earnest trying to help you get through this process and the information is important in order to complete my review and this process.

Thank you for your time and consideration.

Sincerely,

Dickson E. Dibble
