

RECEIVED**BULK GASOLINE PLANT
AIR GENERAL PERMIT REGISTRATION FORM**

JAN 11 2011

Part II. Notification to Permitting Office Bureau of Air Monitoring
(Detach and submit to appropriate permitting office; keep copy onsite) & Mobile Sources

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. (\$100 as of the effective date of this form)

0710142-004

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
 Continue operating the facility after a change of ownership.
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

General Facility InformationFacility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Ryan Tire and Petroleum, Owner Bruce Ryan

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 2650 Edison Ave

City: Ft. Myers

County: Lee

Zip Code: 33916-5306

Facility Start-Up Date (Estimated start-up date of proposed new facility.) (N/A for existing facility)

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

No air operation permits currently exist for this facility.

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Date

Throughput Rate

If this is an initial registration for bulk gasoline plant operations, provide an estimate of the facility's expected gasoline throughput rate (amounts received and distributed) over a 12-month period. Note: the general permit limits the throughput rate to 6.0 million gallons of gasoline in any consecutive 12 months.

NEED →

If this is a re-registration for gasoline bulk plant operations, provide the highest 12-month gasoline throughput rate for the facility for the previous five years. (Indicate the 12-month period over which this usage occurred.)

Rule 62-296.418 Applicability

Check one:

- The facility is subject to subsection 62-296.418(1), F.A.C., because it is located in Miami-Dade, Broward, Palm Beach, Orange, Duval, Hillsborough or Pinellas counties; has an annual average daily throughput of more than 2,000 gallons; and began (or will begin) operation prior to August 1, 2007.
- The facility began (or will begin) operation prior to August 1, 2007, but is not subject to subsection 62-296.418(1) because it is not located in one of the seven listed counties, or it does not have an annual average daily throughput of more than 2,000 gallons.
- The facility is subject to subsection 62-296.418(2), F.A.C., because it is located anywhere in the state, has any throughput rate, and began (or will begin) operation on or after August 1, 2007.

Description of Facility

Below, or as an attachment to this form, provide a description of the bulk gasoline plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used. Include the capacity of all gasoline storage tanks at the facility and note whether each such tank is equipped for submerged filling. Also, note whether the loading racks are equipped with a vapor collection and control system, and provide a description of any such system.

We have 2 15,000 gallon tanks used to receive and store, then distribute gasoline. The entire operation is above ground. Our average gas inventory on site is 9400 between the two tanks.
