PRINTING OPERATIONS
AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET

MAY 22 2012
DIVISION OF AIR
RESOURCE MANAGEMENT

Facility Identification Number - If known (seven digit number)

0710257
0710257-002

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)
- Operates an existing facility not currently permitted or using an air general permit.

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C.
- Any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

N/A

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Multimedia Holdings Corporation (d/b/a The News-Press)

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.)

The News-Press

Facility Location (Physical location of the facility, not necessarily the mailing address.)

Street Address: 2422 Dr. Martin Luther King Jr., Blvd.

City: Fort Myers

County: Lee

Zip Code: 33901

3904

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility.)

N/A

Facility Contact

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)

Print Name and Title: Matt Paradiso

Facility Contact Telephone Numbers

Telephone: (239) 335-0272

Fax: _____

Cell phone: (239) 994-8016

E-mail: mparadis@fortmyer.gannett.com

Facility Contact Mailing Address

Organization/Firm: The News-Press

Mailing Address: 2442 Dr. Martin Luther King, Jr. Blvd.

City: Fort Myers

County: Lee

Zip Code: 33901

Correspondence Contact/Representative (to serve as additional Department contact)

Name and Position Title

Print Name and Title: Shelley Lucas, Legal Consultant

Correspondence Contact/Representative Telephone Numbers

Telephone: (703) 854-6964

Fax: (703) 854-2035

Cell phone: _____

E-mail: svlucas@gannett.com

Correspondence Contact/Representative Mailing Address

Organization/Firm: Gannett Co., Inc.

Mailing Address: 7950 Jones Branch Drive

City: McLean, VA

County: Fairfax

Zip Code: 22107

Government Facility Code (check only one)

- Facility not owned or operated by a federal, state, or local government.
- Facility owned or operated by the federal government.
- Facility owned or operated by the state.
- Facility owned or operated by the county.
- Facility owned or operated by the municipality.
- Facility owned or operated by a water management district.

Initial Registration (Not Required for Re-Registration)

Provide the method (mass balance or material usage rates) expected to be used to demonstrate compliance with Rule 62-210.310(4)(f)2., F.A.C. Provide the estimated amount of materials containing hazardous air pollutants and solvent-containing materials expected to be used over a 12-month period.

FINANCE & ACCOUNTING
REVENUE

Re-Registration (Not Required for Initial Registration)

Provide the highest 12-month total quantity of materials containing hazardous air pollutants and the highest 12-month total quantity of solvent-containing materials used in the last five years to show compliance with sub-subparagraph 62-210.310(4)(f)2.b., F.A.C. (material usage rates) or provide all calculations to show compliance with sub-subparagraph 62-210.310(4)(f)2.a., F.A.C. (mass balance).

The facility is in full compliance with sub-subparagraph 62-210.310(4)(f)2.a., F.A.C. In the past five years:

- The highest consecutive 12-month rolling total volatile organic compound emissions were 35 tons (below the 80 ton limit);
- The highest consecutive 12-month rolling total individual hazardous air pollutant emissions were 2.1 tons (below the 8 ton limit); and
- The highest consecutive 12-month rolling total combined hazardous air pollutant emissions were 2.5 tons (below the 20 ton limit).

The attached calculation spreadsheets show web-fed ink, fountain solutions, and blanket washes are used on the presses. A retention factor of 95% for the web-fed inks is used in the calculations. There are no emissions control units located at the facility.

For background information, the News-Press facility located at 2442 Dr. Martin Luther King, Jr. Boulevard in Fort Myers, Florida is a newspaper web-fed non-heatset offset printer. The facility has three presses in operation, a nine-unit Goss press in service since December 1974; a seven-unit Goss press in service since December 1980; and a four-unit color towers in services since November 2004.

Prior to 2010, the facility used domino inkjet printers. As of January 2010, all domino inkjet printers have been removed from the site.

Re-Registration (Not Required for Initial Registration)

Provide the highest 12-month total quantity of materials containing hazardous air pollutants and the highest 12-month total quantity of solvent-containing materials used in the last five years to show compliance with sub-subparagraph 62-210.310(4)(f)2.b., F.A.C. (material usage rates) or provide all calculations to show compliance with sub-subparagraph 62-210.310(4)(f)2.a., F.A.C. (mass balance).

The facility is in full compliance with sub-subparagraph 62-210.310(4)(f)2.a., F.A.C. In the past five years:

- The highest consecutive 12-month rolling total volatile organic compound emissions were 35 tons (below the 80 ton limit);
- The highest consecutive 12-month rolling total individual hazardous air pollutant emissions were 2.1 tons (below the 8 ton limit); and
- The highest consecutive 12-month rolling total combined hazardous air pollutant emissions were 2.5 tons (below the 20 ton limit).

The above emission values are based on calculations that use no emission factors, retention factors, or control efficiencies. The above numbers are based solely on the amount of material used per month multiplied by their respective VOC contents. Other non-heatset printing facilities have used the state-approved web-retention factor of 95% for non-heatset inks, but this factor is not used in the calculations that provided the above results. There are no emissions control units located at the facility.

The attached calculation spreadsheets show the non-heatset web-fed inks', fountain solutions', and blanket washes' monthly usages and emission calculations.

For background information, the News-Press facility located at 2442 Dr. Martin Luther King, Jr. Boulevard in Fort Myers, Florida is a newspaper web-fed non-heatset offset printer. The facility has three presses in operation, a nine-unit Goss press in service since December 1974; a seven-unit Goss press in service since December 1980; and a four-unit color towers in services since November 2004.

Prior to 2010, the facility used domino inkjet printers. As of January 2010, all domino inkjet printers have been removed from the site.

RE: Printing Operations Air General Permit Registration Renewal Form

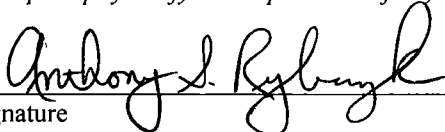

**RE: Printing Operations Air General Permit Registration Renewal Form
The News-Press, Fort Myers, Florida**

Multimedia Holdings Corporations and Gannett Publishing Services, LLP is submitting this Printing Operations Air General Permit Registration renewal form for The News-Press facility located at 2442 Dr. Martin Luther King, Jr. Boulevard in Fort Myers, Florida. Along the permit forms and supporting documents, we have included the registration processing fee of \$100.

Below is the Owner/Authorized Representative Statement

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

PRINTING OPERATIONS

Air General Permit Example Registration Worksheet

The Department of Environmental Protection (“Department” or “DEP”) has established an “air general permit” at Florida Administrative Code (“F.A.C.”) Rule 62-210.310(4)(f) for printing operations. An air general permit is an authorization by rule to construct or operate a specific type of air pollutant emitting facility. Use of such authorization by any individual facility does not require action by the Department. The terms and conditions of the air general permit are set forth in the rule, rather than in a separately issued air construction or air operation permit.

If you are the owner or operator of an eligible facility comprising one or more printing operations, you may register to use the air general permit at Rule 62-210.310(4)(f), F.A.C., by following the general procedures given at subsections 62-210.310(2) and 62-210.310 (3), F.A.C. To register, use the Department’s electronic registration system (currently under development) or submit all the information specified in the above rules to either of the following addresses, along with the air general permit registration processing fee (\$100.00), payable to FDEP.

Mail Station 77
Tallahassee, Florida 32399

If you properly register to use an air general permit, and are not denied use of the air general permit by the Department, you are authorized to construct and operate the facility in accordance with the general terms and conditions of Rule 62-210.310, F.A.C., and the specific terms and conditions of Rule 62-210.310(4)(f), F.A.C. Your facility may vary, so be sure your registration describes the operations at your facility in sufficient detail to demonstrate the facility’s eligibility for use of the air general permit and to provide a basis for tracking any future equipment or process changes. Your registration should describe all air pollutant-emitting processes and equipment at the facility, and it should identify any air pollution control measures or equipment used.

The rules do not require any specific format for the registration. This worksheet, however, has been designed to assist owners and operators. Using it as a template for a general permit registration will help ensure that all necessary information is submitted.

Additional information can be found on the Department’s air general permit program website (http://www.floridadep.org/air/emission/air_gp.htm) or by calling the Small Business Environmental Assistance Program Hotline at 1-800-SBAP-HLP (1-800-722-7457).
