Mr. Sigurd Bo
Environmental Manager
CEMEX Construction Materials Florida, LLC
Ocala South Ready-Mix and Block Plant
626 Southwest 17th Street
Ocala, Florida 34474

Dear Mr. Bo:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on September 11, 2008. We have assigned ARMS No. 0830027-006 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

Dear Mr. Sigurd Bo,

This is confirmation, per your request letter dated December 7, 2009 (attached), that I have INACTIVATED the subject item facility and the associated Emission Units.

It is understood that this facility is temporarily closed due to current market conditions and upon reopening VE's will be conducted before commencing operation according to your letter.

ARMS FACILITY SCREEN COMMENTS: 12/07/09-Per ltr fr O/AR Sig Bo facility has been temporarily closed due to economic conditions. VE's will be conducted upon re-opening & before operations commence.

CONCRETE BATCHING PLANT AIR GENERAL PERMIT REGISTRATION FORM

RECEIVED
SEP 15 2008
BUREAU OF AIR QUALITY
& NOISE CONTROL

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. (\$100 as of the effective date of this form)

0830027-006

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
0830027-005-AG
- No air operation permits currently exist for this facility.

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Partial enclosure

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

CEMEX Construction Materials Florida, L.L.C. takes reasonable precautions to control unconfined emissions from hoppers, storage and conveying equipment, conveyor drop points, truck loading and unloading, roads, parking areas, stock piles and yards as required by Rule 62-296.320(4)(c), F.A.C. The following are the precautions taken at this facility.

Regular sweeping and/or the application of water to the yard is used to control airborne emissions.

Regular removal of particulate matter from roads, paved areas and work areas serves to reduce airborne particulate matter.

The height of stock piles are reduced and the aggregates are continuously sprayed to mitigate wind entrainment of particulate matter.

The loadout area is partially enclosed to prevent emissions at the drop point into the truck.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This facility consists of both a ready-mix and a block production plant. These plants use cement, flyash, slag and aggregate materials to produce ready-mix concrete and concrete block. Dust emissions from these plants are controlled by the following methods.

Ready-Mix Plant:

Emissions generated during pneumatic filling of the cement silos are controlled by C&W CP230 baghouses.

Emissions generated during pneumatic filling of the flyash / slag silo is controlled by a C&W CP305 baghouse.

Emissions generated during the weighing up of cement, flyash, and slag is controlled by a C&W CP70 baghouse batcher vent.

Emissions generated from the batching/truck loading operation are controlled by a shroud and a C&W CP1220 Central dust collector.

Emission Units (EU's) are as follows:

✓ Cement Silo Compartment 1:	Point ID No: 01
✓ Cement Silo Compartment 2:	Point ID No: 02
Flyash / Slag Silo:	Point ID No: 03
✓ Weigh Hopper:	Point ID No: 04
✓ Truck Loadout:	Point ID No: 05

Block Plant:

Emissions generated during pneumatic filling of the cement silo is controlled by a BHA "Pulse Pleat" cartridge dust collector.

Emissions generated during the weighing / mixing operations* is controlled by a fabric filter bag.

Emission Units (EU's) area as follows:

Cement Silo:	Point ID No: 06
*Weigh Hopper / Mixer Machine	Point ID No: 07

* The cement weigh hopper/mixer machine is fully enclosed within the block plant building and does not require annual emissions testing.
