**RECEIVED**

MAR 11 2011

**Part II. Notification to Permitting Office:**

(Detach and submit to appropriate permitting office; keep copy onsite)

**Bureau of Air Monitoring  
& Mobile Sources**

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

**0830051-004**

**Registration Type**

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- Construct and operate a proposed new facility.  
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE/REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.  
 Continue operating the facility after a change of ownership.  
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

**Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only**

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): \_\_\_\_\_  
 No air operation permits currently exist for this facility.

Mr. Dibble, In searching records in file cabinet, I found that the Brown equipment company is the maker of the silo and the capacity is 350 barrel [1400 cu. ft.] 8' 6" tall [10,000 empty weight portable silo]. The model / part# to the dust collector on top is # 514429 -National Filter. The model / part # to the dust house on the ground is 514552- National Filter. The purpose of the dust house on the ground is to collect dust when loading the truck. I believe this is the information you ask me to find. Thank you for your help. Have a God blessed day

Dear James,

See my Tuesday, April 5th e-mail below. I hadn't heard from you so thought I would try to contact you just one more time.

This is just a friendly reminder, but please help me to complete the review of your Concrete Batching Plant renewal. I need the information requested by close of business today or I will have to deny your permit, and I really don't want to have to do that. Please help me.

If you have any questions, comments or concerns please e-mail me or call.

Thanks for your help!

Dear James,

I received your FAX containing the hand-drawn layout of your facility including the pictures. Unfortunately the pictures did not do well coming through as a FAX. The problem is that I am unable to enter pictures or drawings into our database.

Since you have identified the silo as your cement silo please provide me with the **Make** of the silo, **Model** of the silo, or at least the **capacity of the silo in Bbls or Cu. Yds.** Is it a Belgrade?

It's hard to tell, but I think from your drawing you indicated that you have a ground mounted "Belle Style Dust House", but **what emission point does it serve and what is the model of the Belle Style dust house?**

**What is the make and model of your dust filter house shown on top of your cement silo?**

We have three (3) remaining days in the review period and if I don't have the information by close of business on Thursday, April 7<sup>th</sup>, I will have to deny your entitlement to operate and I really don't want to have to do that, so please help me keep this thing on track.

Please send me an e-mail with the information and I will simply attach it as an addendum to your original registration form.

If you have any questions, comments or concerns please e-mail or call.

Thank you for your help and have a great day!

Sincerely yours,

Dear James,

I have attached a copy of the subject item form (pages 7, 8 & 9) which you submitted for the purpose of renewing of your Concrete Batching Plant Air General Permit Registration. Page nine (9) of the form did not include the information requested and Page ten (10) of the form was completely missing.

Also included in the attachment above are two fresh blank pages (Pages 9 & 10) for you to complete and return to me via e-mail or fax, so that I can consider your registration form as complete and I can continue with the review and processing of your renewal.

On Page 10, under **Description of Facility**, we typically need 1) to know what your facility does and more specifically 2) we need to be able to identify the equipment used in the batching process. For example, we need to know the following:

1) Silo Identification

- a) # of silos and identify each (i.e.- cement, slag, flyash, north, south, east, west?)
- b) capacity of each silo (Bbls, Tons, Cu Yds, etc.?)

c) Identify emission control devices (Manufacturer, Model#, Filter type, Filter area?)

1. Type (Silotop, ground mounted, in-truss, vent?)

2) Batchers/Mixers/load-outs

a) Identify emission control devices (bag houses, spray rings, enclosed chute, shroud?)

b) If baghouses or dust collectors (Manufacturer, Model#, Filter type, Filter area?)

c) Type (Central, ground mounted, in-truss?)

3) Identification of all Emission control units (as in 1)c) and 2)b) & 2)c) above.

We only have eight (8) days remaining in the mandatory thirty (30) day review & processing period, so it is important that I receive this information as soon as possible, otherwise I will have to deny your permit registration and I really don't like to do that.

Thank you for your attention to this matter. If you have any questions, comments or concerns please e-mail or call.

Have a great day!

Sincerely yours,

*Dickson E. Dibble*
