Deficiency	N/A
Date RO Contacted	7/15/2009
Comments	Ms. Fox called back on 7/15/09 and told me that she does not have any dry cleaning machines on site. She is only a drop off site. She does have a small electric boiler. She is in the process of renegotiating her lease with the landlord and is trying to get permission to reestablish her dry cleaning business and will send an application to operate once her request is approved. I told her to send a letter requesting a withdrawal of her permit to operate a drycleaner.
Source Type	Small area source
Control Technology	No machines in stalled
