Mr. Mike Parker  
Gate Precast Company  
1018 Sawdust Trail  
Kissimmee, Florida 34744

Dear Mr. Parker.:

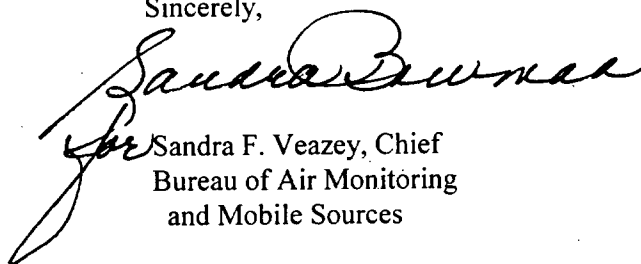

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on April 16, 2008. We have assigned ARMS No. 0970074-004 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after 5 years. Therefore, a new registration form must be received no later than 5 years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief  
Bureau of Air Monitoring  
and Mobile Sources

SFV/pg

cc: Ms. Caroline Shine, Central District

**CONCRETE BATCHING PLANT  
AIR GENERAL PERMIT REGISTRATION FORM**

**Part II. Notification to Permitting Office**

(Detach and submit to appropriate permitting office; keep copy onsite)

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

**0970074-004**

**Registration Type**

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

**Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only**

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit, specifically permit number(s):  
0170074-003-AG
- No air operation permits currently exist for this facility.

**General Facility Information**

**Facility Owner/Company Name** (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

**Gate Precast Company**

**Site Name** (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

**Kissimmee**

**Facility Location** (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 1018 Sawdust Trail

City: Kissimmee

County: Osceola

Zip Code: 34744

**Facility Start-Up Date** (Estimated start-up date of proposed new facility.)(N/A for existing facility)

June 1, 2008

**Owner/Authorized Representative**

**Name and Position Title** (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Print Name and Title: Mike Parker, Plant Manager

**Owner/Authorized Representative Statement**

This statement must be signed and dated by the person named above as owner or authorized representative

*I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.*

*I will promptly notify the Department of any changes to the information contained in this registration form.*

Division of Air Monitoring  
& Mobile Sources

**Type of Facility**

Check one:

**Stationary Facility**

**Relocatable Facility**

**Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions**

Check all precautions to be used for the management of roads, parking areas, stock piles and yards:

**Pave Roads**

**Pave Parking Areas**

**Pave Yards**

**Maintain Roads/Parking/Yards**

**Use Water Application**

**Use Dust Suppressant**

**Remove Particulate Matter**

**Reduce Stock Pile Height**

**Install Wind Breaks**

Check all precautions to be used for the management of drop points to trucks:

**Spray Bar**

**Chute**

**Enclosure**

**Partial enclosure**

**Description of Reasonable Precautions**

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

This facility is a central (wet-mix) concrete batch plant. There are no drop points to trucks. Product is mixed in the mixers and transferred in a chute at each batch plant as wet concrete. Therefore, there are no emissions as such as those at truck mix plants.

### **Description of Facility**

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

At this time, the facility consists of two batch plants: a North Plant and a South Plant. The North Plant will be demolished and replaced with a new plant to be located adjacent to (and to the east of) the South Plant. This new plant is a Mixers Systems, Inc., plant with one mixer and one silo. The silo is a 197 ton capacity silo equipped with a Mixers Systems, Inc., top mounted dust collector with 150 sq. ft. of cloth area.

The South Plant is unchanged from the existing AG permit. It consists of two cement storage silos and 2 rotary mixers. The northmost silo (EU-003) is equipped with a Standley Batch Systems Model 252R baghouse. The southmost silo (EU-004) is equipped with a Belgrade Steel Tank Co. Model 150 baghouse.

This facility operates no emissions units other than the two (2) concrete batch plants serving a Central (wet-mix) precast concrete manufacturing operation and emission units which are exempt from permitting pursuant to Rule 62-210.300(3)(a) or (b), FAC.

The facility is not a Title V source as defined in Rule 62-210.200, FAC.

This facility is not subject to a particulate matter RACT emission limiting standard.

The facility is not located at a Title V facility and does not create a Title V source in conjunction with other facilities or emission units.

The most recent visible emission compliance tests are attached.

NOTE: As the batching operation is governed by Rule 62-296.414(3)(d), FAC, no minimum, maximum or average batching will apply.

**Subject: Air General Permit Notification  
Concrete Batching Plant  
Gate Precast Company**

Dear Sir or Madam:

The subject Concrete Batching Plant Air General Permit Notification Form, DEP Form No. 62-210.920(2)(b), is submitted on behalf of Gate Precast Company. A check for \$100.00, made out to Florida Department of Environmental Protection, to cover the processing fee is enclosed as required by Rule 62-4.050(4)(p)b., FAC.

Gate Precast Company has an existing permitted precast facility located in Kissimmee. This form is submitted to cover an equipment change at the Kissimmee location. The existing North Batch Plant will be demolished and replaced with a new plant. The existing South Batch Plant will remain the same. The most recent VE compliance tests for both existing plants are submitted with this application.

Please call me if you have any questions concerning the notification form.

Sincerely,

George L. Whitmer
