

RECEIVED

REINFORCED POLYESTER RESIN OPERATIONS SEP 13 2011
AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET
 DIVISION OF AIR
 RESOURCE MANAGEMENT

Facility Identification Number - If known (seven digit number)

0990666

0990666-002

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)
- Operates an existing facility not currently permitted or using an air general permit.

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C.
- Any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

_____ JSF MARINE, LLC

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.)

_____ FLORIDA MARINE FACILITY

Facility Location (Physical location of the facility, not necessarily the mailing address.)

Street Address: 2100 AVENUE B

City: RIVIERA BEACH

County: PALM BEACH

Zip Code: 33404-5654

Facility Start-Up Date (Estimated start-up date of proposed new facility.) (N/A for existing facility.)

_____ N/A

Facility Contact

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)

Print Name and Title: RICHARD KAUFFMAN / CONTROLLER

Facility Contact Telephone Numbers

Telephone: 561-493-2800

Fax: 561-493-2801

Cell phone: 561-267-3107

E-mail: RKAUFFMAN@VIKING-YACHTS.COM
(ALL LOWER CASE)

Facility Contact Mailing Address

Organization/Firm: JSF MARINE, LLC ATTN: RICHARD KAUFFMAN

Mailing Address: 1550 AVENUE C

City: RIVIERA BEACH

County: PALM BEACH Zip Code: 33404

Other Contact/Representative (to serve as additional Department contact)

Name and Position Title

Print Name and Title: STEVE LEWIS / SERVICE OPERATIONS - SAFETY OFFICER

Other Contact/Representative Telephone Numbers

Telephone: 561-493-2800

Fax: 561-493-2801

Cell phone: 561-644-1142

E-mail: SLEWIS@VIKING-YACHTS.COM
(all lower case)

Other Contact/Representative Mailing Address

Organization/Firm: VIKING YACHT SERVICE CENTER

Mailing Address: 1550 AVENUE C

City: RIVIERA BEACH

County: PAUM BEACH Zip Code: 33404

Material Usage Rates

If this is an **initial registration** for a reinforced polyester resin operation, provide an estimate of the total quantity, in pounds, of styrene-containing materials (resin and gelcoat) expected to be used over a 12-month period.*

N/A

If this is a **re-registration** for a reinforced polyester resin operation, provide the highest 12-month total quantity, in pounds, of styrene-containing materials (resin and gelcoat) used in the last five years. Indicate the 12-month period over which this usage occurred.

32,925 lbs.

JULY, 2007 — JUNE, 2008

*Note: the general permit limits the usage of such material to 76,000 pounds (38 tons) in any consecutive 12 months.

Description of Facility

Below, or as an attachment to this form, provide a description of the reinforced polyester resin operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Control boxes and other small parts are fabricated in the building by open molding techniques where a gelcoat is coated on the inside of a mold to begin the process, then layers of fiberglass are added to bring the hardtop to design thickness. Resin is applied to the fiberglass with rollers and flow coaters. The parts are then cured by air drying and removed from the mold. Hard tops and buggy tops are fabricated using the vacuum bagging technique (infusion molds) which minimizes emissions.

Helpful Definitions

"Department" or "DEP" - The State of Florida Department of Environmental Protection.

"Emissions Unit" - Any part or activity of a facility that emits or has the potential to emit any air pollutant.

"Facility" - All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).

"Owner" or "Operator" - Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.

"Polyester Resin Material" - Materials used in polyester resin operations which include isophthalic, orthophthalic, halogenated, bisphenol-A, vinyl-ester or furan resins; cross-linking agents; catalysts, gel coats, inhibitors, accelerators, promoters, and any other VOC containing materials.

"Reinforced Polyester Resin Operations" - An operation that entails saturating a reinforcing material such as glass fiber with a polyester resin material. Such operations include the production or rework of product by mixing, pouring, hand laying-up, impregnating, injecting, forming, spraying, and/or curing unsaturated polyester materials with fiberglass, fillers, or any other reinforcement materials and associated cleanup.
