**SURFACE COATING OPERATIONS
AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office
(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

0990691-001

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

Construct and operate a proposed new facility.

Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

Continue operating the facility after expiration of the current term of air general permit use.

Continue operating the facility after a change of ownership.

Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____

No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)
Manheim Palm Beach

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)
Manheim Palm Beach

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)
Street Address: 600 Sansbury Way
City: West Palm Beach County: Palm Beach Zip Code: 33411

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)
N/A

03/11/2007

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Print Name and Title: Efrain Sanchez Jr., Recon Manager

Owner/Authorized Representative Mailing Address

Organization/Firm: Manheim Palm Beach

Street Address: 600 Sansbury Way

City: West Palm Beach

County: FL

Zip Code: 33411

Owner/Authorized Representative Telephone Numbers

Telephone: 561-790-1200

Fax: 561-798-0774

Cell phone (optional): 561-644-4963

Facility Contact (If different from Owner/Authorized Representative)

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)

Print Name and Title: Efrain Sanchez Jr., Recon Manager

Facility Contact Mailing Address

Organization/Firm: Manheim Palm Beach

Street Address: 600 Sansbury Way

City: West Palm Beach

County: Palm Beach

Zip Code: 33411

Facility Contact Telephone Numbers

Telephone: 561-790-1200

Fax: 561-798-0774

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Material Usage Rates

If this is an **initial registration** for a surface coating operation, provide an estimate of the average quantity of volatile organic compounds in all coatings (solvents and thinners) expected to be used on a daily basis.)

** SEE ATTACHED REVISED REGISTRATION FORM* 

If this is a **re-registration** for an existing surface coating operation, provide the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) used in the last five years. Indicate the month and year during which this usage occurred.

*Please see emissions summary attached

** N/A - THIS IS NOT A RE-REGISTRATION. SEE ATTACHED E-MAIL & REVISED REGISTRATION FORM AS AN ADDENDUM TO THIS REGISTRATION FORM.*

Description of Facility

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

A. D. [Signature]

Wholesale auction facility operating a body shop for reconditioning automobiles prior to sale. Typical repairs and reconditioning services consist of repair of door dings, rock chips, and scratches and refinishing only those repair areas. All painting is performed using HVLP spray guns and guns are cleaned in an enclosed gun cleaner.

The facility consists of:

One (1) single car, gas heated spray booth with emission controls.

Subject: RE: The Wheel Wizard 0990688

Breaking News in the Wheel Wizard episode!

We have just received a Surface Coating Operations (SCO) AGP Registration Form from MANHEIM PALM BEACH, the owner of the West Palm Beach Auto Auction @ 600 Sansburys Way where Wheel Wizard has been entitled to operate.

I called and have informed the Owner/Authorized Representative, Mr. Efrain Sanchez Jr., Reconditioning Mgr. for Manheim, that F.A.C. rules do not allow two general permit entitlements at the same location and that Wheel Wizard currently was the entitled entity at their address. Mr. Sanchez indicated that Manheim had originally requested that Wheel Wizard obtain the AGP entitlement. Then Corporate in Atlanta decided that they too wanted an entitlement since they operated a spray booth and an associated emission control unit attached to the booth where they perform auto-body work, and auto-body refinishing in the booth. They indicated that WHEEL WIZARD paints wheels only and does not utilize Manheim's spray booth.

I mentioned to Mr. Sanchez that in order for Manheim Palm Beach to be eligible to use the SCO AGP, the Wheel Wizard would have to surrender their AGP entitlement, but could operate under the Manheim AGP as long as the Manheim facility did not exceed the thresholds of the SCO AGP. He indicated that Manheim was desirous of being the entitlement holder and would ask the Wheel Wizard to surrender their entitlement to accommodate.

We are currently in a (PENDING) condition with respect to the Manheim SCO Registration for two reasons:

- 1) Awaiting communication from Wheel Wizard of their desire to surrender their entitlement
- 2) Since the Manheim Palm Beach facility was never previously entitled, and it is regarded as an initial registration, they did not provide the correct information as requested on the registration form and we are awaiting an update to that info.

Subject: RE: The Wheel Wizard 0990688

Good morning, Dick:

Thanks for your input; I am guessing we probably have about 8 mobile units operating in PBC. They frequent the auto dealerships, marinas and boat yards. They may also do some private owner vehicle jobs, as well. We have had occasional nuisance odor complaints regarding mobile operations in the past, but I would not say these complaints have kept us busy; we know they are out there. Most of their work is touch-up work and some full panels; at marinas/boat yards there may be more extensive painting. Wheel Wizard only does wheels. Many of them utilize HVLP spray equipment.

I know that Faith has indicated she is already having difficulty locating anyone when she goes to the auto auction mall that knows anything about the permit, and there have been no operators from Wheel Wizard onsite when she has been there, either. She has been able to contact representatives from Wheel Wizard by phone. Our understanding is that Wheel Wizard came in for the GP because the auto auction mall was requiring them to be permitted.

It may be more realistic to permit the facility utilizing mobile spray coaters rather than the mobile spray coater, since the facility may employ the services of more than one mobile spray coater. I have actually seen dealerships utilize mobile spray coaters for touch-up jobs, even though they have state-of-the art spray booths for full body jobs onsite.

I am not sure how much coating mobile spray coaters typically use on a daily basis. Wheel Wizard estimates their solvent use (paints, solvents, etc.) to be about 8 lbs/day. That extrapolates out to about 1 ton a year.

I hope some of this helps to answer your questions.

Randy.

Subject: RE: The Wheel Wizard 0990688

Good morning to you Randy!

We know one thing for sure. The Wheel Wizard is entitled to operate at the Auto Auction Mall when they are at that location and that is what they registered for. It does not entitle them to operate at any another location.

There are currently no State rules similar to relocatable crushers or relocatable concrete batching plants that specifically target mobile surface coating operations. However that's not to say, that if there are plenty of them out there, maybe some consideration should be given to addressing the issue.

Maybe consideration should be given to including a **categorical exemption** for mobile surface coating ops in the rules. My initial assessment might be that these are mostly little "Mom & Pop" operations and my question would be what is the impact they have on the environment? Are we trying to kill a flea with a sledgehammer?

Do you have any idea how many we might be talking about, and would it be worth the effort to target mobile SC Operations?

As I mentioned in my previous e-mail to Faith, we currently have only the one Surface Coating (SC) Operations AGP Registration rule which I would assume cover all SC operations be they stationary or mobile. However, the current rules are specifically designed for stationary source facilities.

If they are mobile and their records indicate they are eligible for a GP should they be permitted? I can't answer that question affirmatively, since the rules don't specifically address mobile SC Ops. I am not sure that it would be practical to design a set of relocatable rules similar to crushers or concrete batch plants for surface coaters, since a SC may be in West Palm Beach in the morning and Fort Lauderdale in the afternoon. How would you handle those logistics?

Terri, any thoughts on the issue?

I hope this helps.

Have a great day!

Dick

To: Dibble, Dickson
Cc: Faith_Martin@doh.state.fl.us
Subject: FW: The Wheel Wizard 0990688

Good morning, Dick:

The source that Faith is referring to is a little unusual; as I understand it, we have an auto auction mall that Wheel Wizard may do spray painting at when needed, but Wheel Wizard is not actually headquartered at the auto auction mall. They are a mobile spray coating operation, operating in PBC and other areas of Florida. They apparently operate out of the Tampa area. So the question becomes, are you aware of any provisions requiring mobile spray operations (with no fixed facility) to register for a statewide GP, similarly to the rock crushers. We have several operating in PBC that currently have no permit.

Thanks.
Randy.

Cc: Ajhar, Rebecca
Subject: RE: The Wheel Wizard 0990688

Faith,
The rules cover Surface Coating Operations, whether they be mobile or stationary, spray booth or no spray booth. Eligibility for Surface coaters is determined by the owner/operator, based on the amount of VOC content and the quantity of the coatings used according to the rules. (Rule 62-210.310(4)(c), F.A.C.)
I hope this helps.
Have a great weekend!

Subject: The Wheel Wizard 0990688

Good afternoon,

I have a question re: the newly permitted Wheel Wizard (0990688). I've made several unsuccessful attempts to inspect this facility at 600 Sansbury's Way. I was able to confirm today that The Wheel Wizard is actually a mobile spray operation. I made contact with a Ms. Heidi Rodriguez (941.284.1375), the person responsible for ordering their supplies and maintaining their spray logs. She confirmed that the spray operation is mobile and does not utilize a spray booth.

Based on the fact that the operation is mobile, do you think that the facility requires a GP?

Please let me know your thoughts on this.

Thank you,
