Matt,

I received your letter dated 12/17/08 regarding your request to change the status of the subject item facility to INACTIVE. The only question I have is that since this site was found to be vacant during Mr. Jeff Morris's recent attempt to inspect was he able to verify if the equipment had been removed or at least disconnected and whether or not the PERC had been removed from the site? If so, I would like to add the appropriate comments to ARMS when I INACTIVATE it.

Thank you for your assistance.

Merry Christmas and Happy New Year!

Dick
