Good Morning Mr. Dibble,

Air Quality determined the facility was still closed and locked on 1/5/09. The dry-dry machine was observed to be in the back of the facility and it was not clear whether it was connected to a power source. Telephone calls were placed to the RO, but no answer. Another follow-up inspection is planned in a couple of months.

If you have any further questions, please contact our office.

Thanks,

Jeff

Matt,

I received your letter dated 12/17/08 regarding your request to change the status of the subject item facility to INACTIVE. The only question I have is that since this site was found to be vacant during Mr. Jeff Morris's recent attempt to inspect was he able to verify if the equipment had been removed or at least disconnected and whether or not the PERC had been removed from the site? If so, I would like to add the appropriate comments to ARMS when I INACTIVATE it.

Thank you for your assistance.

Merry Christmas and Happy New Year!

Re: Olympian Cleaners, dba - 1030297-004-AG

Mr. Dibble:

Based on a January 11, 2008 inspection at Olympian Cleaners, dba, located at 11926 Seminole Boulevard, Largo, FL this facility is considered shutdown. Inspection findings indicate that:

The building space previously used by this facility for its operations is now vacant.

Therefore, the facility is considered shutdown. Air Quality attempted to contact the Responsible Official, Frank Tsang, but proved unsuccessful. Air Quality intends to deactivate this facility from its tracking files and awaits confirmation from your office that it has been deactivated in the ARMS system.

Should you have any questions relative to this facility's operations please contact the assigned inspector Jeffrey Morris. If you wish to contact me directly, please call 727-464-4422, or email at mmccann@pinellascounty.org.

Sincerely,
