Mr. P. James Grauer
General Manager
Monsey Products Company
2701 State Road, 60 West
Bartow, Florida 33830

Dear Mr. Grauer:

The Department has received the Title V General Permit Notification Form for the asbestos manufacturing and fabrication facility that you submitted on August 27, 1996.

Please note that in November of each year the Department will be mailing fee notices to those facilities using the Title V general permit. This annual operation fee is \$50 and it is due and payable between January 15 and March 1 of each year the facility is in operation and is subject to the requirements of the Title V general permit.

If you have or expect to have any changes in your mailing address, location address, responsible official, or phone number, please notify the Department at the following address:

Title V General Permits Office
Bureau of Air Monitoring and Mobile Sources MS 5510
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, Fl 32399-2400

If there are any changes in the facility status, including change of operating parameters or equipment, or if you have any additional questions regarding the Title V General Permit Program, please contact the District or local air program compliance inspector in your area.

Sincerely,

Dotty Diltz, Chief
Bureau of Air Monitoring
and Mobile Sources

Re: Request For Air Pollution Operation Permit Exemption For
Existing Emission Units To Allow Use Of Air General Permit.

Location: Monsey Products Company
2701 State Road 60, West
Bartow, Florida

Dear Mr. Kinast:

On June 3, 1996, the Department of Environmental Protection (Department) received your request for an exemption from the requirement to obtain air pollution operation permits for certain emission units at the existing Monsey Products Company facility, located at 2701 State Road 60, West, Bartow, Florida. This exemption request is based on the assumption that Monsey Products Company would proceed with air permitting using the Title V Air General Permit Notification Form.

Based on a site inspection by Department personnel conducted on May 14, 1996, and a subsequent review of the actual emissions at this facility, the Department has determined that this facility is eligible for an Air General Permit using the Air General Permit Notification Form, DEP Form No. 62-213.900(6) - ASBESTOS MANUFACTURING AND FABRICATION FACILITIES. In order to be eligible for the Title V General Permit, the facility may not have a non-exempt emission unit other than the emission unit described in the Title V Air General Permit.

For the existing hot oil heater, storage tanks and mixers at this facility the levels of emissions are considered low and consequently the Department will not require the facility to submit applications for air pollution operation permits or require that these specific emission units have air pollution operation permits, at this time.

(Continued)

Page 1 of 2

Mr. John K. Kinast
Monsey Products Company

Air General Permit

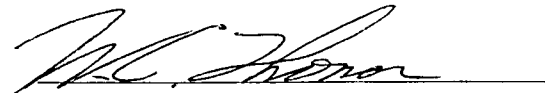

This Department action will allow Monsey Products to satisfy the facility's air permitting obligations by applying for a Title V General Permit for the remaining baghouse emission unit by using the Air General Permit Notification Form, DEP Form No. 62-213.900(6) - ASBESTOS MANUFACTURING AND FABRICATION FACILITIES. The current date for submittal of the Air General Permit Notification Form is September 1, 1996.

Please be advised, that air pollution operation permits at the facility may be required and the General Permit determination authorized in this letter may become void if the above referenced operations become a source of citizen complaints or if a production rate increase, a change in the method/mode of operation, or if emissions rates for these exempted emission units increase above present levels and would no longer be considered exemptible by the Department.

It is requested that this Department be notified prior to any future facility modifications or expansions which could affect emissions.

If you have any additional questions, please contact Mr. Gerald J. Kissel, P.E., District Air Permitting Supervisor at 813-744-6100, ext 107, or Mr. John J. Taylor, Air Permit Engineer, at 813-744-6100, ext 117.

Sincerely,

W.C. Thomas, P.E.

Dear Ms. Bowman:

Monsey Products Co. merged with Bakor of Canada in 1996 and our name in the trades became Monsey Bakor.

However, for legal and environmental reasons we remain Monsey Products Co. in the U.S., so there is no reason to change the Title V general permit.

Should you have any further questions, please don't hesitate to call.

Yours Truly,
MONSEY BAKOR

Dear Mr. Kinast:

Thank you for your February 6 letter informing the Department of the recent merger of Monsey Products Co. with Henry Company and the change in plant managers.

Rule 62-213.300(3), Florida Administrative Code (F.A.C.), states that the general permit is **non-transferable** and does not follow a change in ownership. Therefore, a Perchloroethylene Dry Cleaner Air General Permit Notification Form will need to be completed and submitted to the Division of Air Resource Management.

I am enclosing the Perchloroethylene Dry Cleaners Air General Permit Notification Form for your convenience. If you have any questions concerning the form or the Title V general permit program, please call Rick Butler at 850/921-9586 or me at 850/921-9583.

Sincerely,

Sandra Bowman

Re: Air General Permit

Dear Ms. Bowman,

Monsey Bakor, FDEP air general permit #1050283, is changing the responsible official for the Bartow facility from James Grauer to Frank Bechard. This change is effective January 1, 1999.

I am also including the annual compliance certification.

If you should have any questions or concerns, please feel free to contact me at (800) 532-0522.

Sincerely,

Frank Bechard
Plant Manager
