Michael W. Sole
Secretary

December 6, 2007

Mr. Robert Richards
Jan Stone, Incorporated
135 Bargain Barn Road
Davenport, Florida 33837

Dear Mr. Richards:

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on November 2, 2007. We have assigned ARMS Number 1050411-001 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after 5 years. Therefore, a new registration form must be received no later than 5 years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

SFV/pg

cc: Mr. Christopher Bradley, Southwest District

CONCRETE BATCHING PLANT AIR GENERAL PERMIT REGISTRATION FORM

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- ☐ Construct and operate a proposed new facility.
☒ Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- ☐ Continue operating the facility after expiration of the current term of air general permit use.
☐ Continue operating the facility after a change of ownership.
☐ Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- ☐ All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
☒ No air operation permits currently exist for this facility.

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Cement Silos

we have Two Cement silos that hold Portland
Cement

#1 White Portland 28 Tons
#2 Gray Portland 40 Tons

The Portland Cement is augered into weighbatcher that is totally enclosed, and then dropped into Cement mixer that is totally enclosed. The aggregate is dropped into mixer and then water is added.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Shale aggregate is loaded into 2 Hopper inside building. There it is weighed and dropped into mixer. Then water is added to the aggregate. At that time Cement is weighed in enclosed weigher. Then dropped into running mixer. There is not much dust created in this process. There are two Silos that have air induced Baghouses.

Mr. Chad Richards:

Attached you will find a .pdf file with a copy of the subject item which you have submitted for the purpose of obtaining an entitlement to operate your Concrete Batching pre-cast facility.

I mentioned during our conversation today that there were portions of your application that were left blank and are needed to complete the registration process. I highlighted each of those deficient areas, but unfortunately the highlight does not show. I will attempt to describe the areas where the needed information is missing.

Page 7 - Site Name – Need a site name, even if it is the same as the Company name.
 Page 7 – Facility Location – actual street address location of the physical facility

Page 8 – Owner/Authorized Representative Mailing Address – Organization/Firm name needed
 Page 8 - Owner/Authorized Representative Mailing Address – need street or P.O. address

Page 9 – Check ☒ each of the reasonable precautions used to prevent unconfined emissions

Page 9 – Check ☒ each precaution to be used for the management of drop points to trucks, if any

Page 9 – Description of Reasonable precautions box – place all associated CCB plant processing equipment in box on Page 10 and use this box to describe in more detail the reasonable precautions to be used to prevent unconfined emissions at your facility.

Page 10 – Describe your concrete batching operations, equipment etc., according to the question on Page 10.

You may FAX the completed form to me at (850) 922-6979, or if you have scanning capability, you may return it to me the same way I sent it to you. I will attach it as an addendum to your original application.

Thank you for your cooperation. Your thirty (30) day review process began on the date of receipt of your application and application fee, which was 11/02/2007.

If you have any future questions or concerns, please call or e-mail me.
