**To:** Dibble, Dickson  
**Subject:** RE: WAM RO1 SILO TOP SPECIFICATIONS  
**Attachments:** bartow silos.pdf

See attached sheet for silo labels.

Also, Batchter 1 and Batchter 2 will have the same bag house that is on the silos.

Dear Mr. Nabors,

I have not yet received a response from you regarding my additional request e-mail request below (05/14/09) for additional silo identifier information. We have one (1) day remaining in the thirty (30) day review window and without that specific information I may have to deny your permit. I would really prefer not having to do that. If you would be so kind as to provide me with the information requested by no later than COB tomorrow we can avoid a permit denial.

If you have any questions, please e-mail or call. I look forward to hearing from you.

Have a great day!

Sincerely,

Dickson E. Dibble

Subject: RE: WAM RO1 SILO TOP SPECIFICATIONS

Dear Mr. Nabors:

Thank you for your very prompt request to my telephone request on Tuesday.

The information you have supplied is adequate with respect to the specifics of the control devices for the six (6) silos. However, **with respect to individual silo identification, would you kindly provide identifiers for each silo such as direction (N, S, E, W, NE, SE, etc.), or a number, or the product contained within, and/or capacity in T or Bbls and typical loading rates of each?**

Also, in your original application you indicated that there will be batching equipment with attached baghouse(s). Would you kindly provide the emission unit control specifics of that process? Also, is the batching equipment baghouse(s) ground-mounted, frame mounted, truss mounted, enclosed, etc.?

Thank you for your assistance in providing the above information in order to complete the registration and review process.

Have a great day!

Dickson E. Dibble

Dick,  
See attached and see if this is what you need.

We will have 6 silos with this facility.
