

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type
Check one:
 INITIAL REGISTRATION - Notification of intent to: ☐ Construct and operate a proposed new facility. ☐ Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).
RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to: Continue operating the facility after expiration of the current term of air general permit use. Continue operating the facility after a change of ownership. Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.
Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only
If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box. All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
No air operation permits currently exist for this facility.
General Facility Information
<u>Facility Owner/Company Name</u> (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)
W.J. Development dba St. Augustine Marine Center
Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.) St. Augustine Marine Center
Facility Location (Provide the physical location of the facility, not necessarily the mailing address.) Street Address: 404 Riberia Street
City: St. Augustine County: St. Johns Zip Code: 32084

DEP Form No. 62-210.920(1)(d) Effective: January 10, 2007 Facility Start-Up Date (Estimated start-up date of proposed **new** facility.)(N/A for existing facility) N/A

DEP Form No. 62-210.920(1)(d) Effective: January 10, 2007 Owner/Authorized Representative

<u>Name and Position Title</u> (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Print Name and Title: Mr. Roger Yarborough, Vice President

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so

as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

 $I\ will\ promptly\ notify\ the\ Department\ of\ any\ changes\ to\ the\ information\ contained\ in\ this\ registration$

form.

DEP Form No. 62-210.920(1)(d) Effective: January 10, 2007

Material Usage Rates

If this is an **initial registration** for a reinforced polyester resin operation, provide an estimate of the total quantity, in pounds, of styrene-containing materials (resin and gelcoat) expected to be used over a 12-month period. Note: the general permit limits the usage of such material to 76,000 pounds (38 tons) in any consecutive 12 months.

70,000 pounds total; 60,000 pounds of resin and 10,000 pounds of gel coat

If this is a **re-registration** for a reinforced polyester resin operation, provide the highest 12-month total quantity, in pounds, of styrene-containing materials (resin and gelcoat) used in the last five years. Indicate the 12-month period over which this usage occurred.

Description of Facility

Below, or as an attachment to this form, provide a description of the reinforced polyester resin operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This facility will manufacture small pleasure craft fiberglass boats and associated parts. The assoicated parts include decks, hulls, hatches, seats and other parts associated with these small boats. The raw materials of concern used at this facility include fiberglasss, resins, gel coat, paint, adhesives and caulk.

The boats manufactured using open molding and the gel coat is applied with flow-coaters which is a non-atomized mechanical application. There is also repair work which includes painting boats.

This facility will develop a spreadsheet to track all materials including resins and gelcoats used on a monthly basis based on purchases and a 12-month rolling total to ensure they remain under the limit of 76,000 pounds.

St Augustine Marine General Permit Registration

Dick,

St. Augustine Marine meets the permit exemption criteria for Surface Coating Operations according to 62-210.300(3)(a)27;

The surface coating operations shall use only coatings containing 5% or less VOC by volume, or the total quantity of coatings containing greater than 5% VOC by volume, used at this facility shall not exceed 6 gallons per day, including solvents and thinners, averaged monthly.

The paint at this facility is strictly used for touch up and repair.

Thank you,

--
