**SURFACE COATING OPERATIONS  
AIR GENERAL PERMIT REGISTRATION FORM**

**Part II. Notification to Permitting Office**

(Detach and submit to appropriate permitting office; keep copy onsite)

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

1110139-001

**Registration Type**

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- Construct and operate a proposed new facility.  
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.  
 Continue operating the facility after a change of ownership.  
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

**Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only**

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): \_\_\_\_\_  
 No air operation permits currently exist for this facility.

**General Facility Information**

**Facility Owner/Company Name** (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Re-Bus LLC

**Site Name** (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Mobile Repair Operations

**Facility Location** (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 1266 SW Malaga Ave

City: Port St Lucie

County: St Lucie

Zip Code: 34953-4821

**Facility Start-Up Date** (Estimated start-up date of proposed new facility.) (N/A for existing facility)

8/1/2010

**Owner/Authorized Representative**

<b>Name and Position Title</b> (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.) Print Name and Title: Keith Moody Owner / Member		
<b>Owner/Authorized Representative Mailing Address</b> Organization/Firm: Re-Bus LLC Street Address: 1266 SW Malaga Ave City: Port St Lucie County: St Lucie Zip Code: 34953		
<b>Owner/Authorized Representative Telephone Numbers</b> Telephone: (772) 418-7711 Fax: Cell phone (optional): (561) 723-3270		

**Facility Contact (If different from Owner/Authorized Representative)**

<b>Name and Position Title</b> (Plant manager or person to be contacted regarding day-to-day operations at the facility.) Print Name and Title:		
<b>Facility Contact Mailing Address</b> Organization/Firm: Same as owner Street Address: City: County: Zip Code:

**Owner/Authorized Representative Statement**

This statement must be signed and dated by the person named above as owner or authorized representative

*I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.*

*I will promptly notify the Department of any changes to the information contained in this registration form.*

Signature: Keith Moody Date: 6/9/10

### Material Usage Rates

If this is an initial registration for a surface coating operation, provide an estimate of the average quantity of volatile organic compounds in all coatings (solvents and thinners) expected to be used on a daily basis.

~~25 gallon or less~~ Will be using low VOC urethane and enamel coatings. Average 25 gal or less of material, estimate 1.5-2 VOCs total

If this is a re-registration for an existing surface coating operation, provide the highest monthly average of the daily quantity of volatile organic compounds in all coatings (solvents and thinners) used in the last five years. Indicate the month and year during which this usage occurred.

### Description of Facility

Below, or as an attachment to this form, provide a description of the surface coating operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Large equipment painting that can not be moved off of operating site due to size.  
Paint touchup on an infrequent basis on large trucks and busses as part of a mobile repair business.  
The only air pollutant emitting process will be industrial paint, primer and solvents. Equipment will all be HVLP gravity touch up guns or standard quart guns. The primary business is the repair of busses and heavy equipment. Surface coating is a necessary but infrequent function of the business.

Due to the size and potential immobility, the work will be done on sites such as mines, quarries and ranches as well as possibly industrial facilities. These locations will be far removed from any other people, houses or businesses. Air pollution control ~~will~~ ~~be~~ be achieved by using proper spraying equipment, techniques, training, not working in windy conditions, tarping when possible and paint accelerators. Coatings may be rolled onto equipment to increase transfer rates when possible/feasible
