# NONMETALLIC MINERAL PROCESSING PLANT (CRUSHER) AIR GENERAL PERMIT EXAMPLE REGISTRATION WORKSHEET

| Facility Identification Number - If known (seven digit number)   |
|--|
| — 1150148 //50148 - OQ2  |
| Registration Type  |
| Check one:  INITIAL REGISTRATION - Notification of intent to:  Construct and operate a proposed new facility.  Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)  Operates an existing facility not currently permitted or using an air general permit. |
| RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:  ☑ Continue operating the facility after expiration of the current term of air general permit use.  ☐ Continue operating the facility after a change of ownership.  ☐ Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C.  ☐ Any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.   |
| Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable  |
| All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):   |
| General Facility Information   |
| Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)  Frederick Derr & Company, Inc.  |
| Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.)  Frederick Derr & Company, Inc.  |
| Facility Location (Physical location of the facility, not necessarily the mailing address.)  Street Address: 3801 North Orange Avenue  City: Sarasota  |
| Facility Start-Up Date (Estimated start-up date of proposed <b>new</b> facility.)(N/A for existing facility.)  N/A   |

| Facility Contact  |
|---|
| Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)  Print Name and Title: Robert Tennant, Equipment Superintendent  |
| Facility Contact Telephone Numbers         Telephone:941-355-8575 x 236       Fax:941-351-8854         Cell phone:941-809-2401         E-mail: robert@frederickderrcompany.com      |
| Facility Contact Mailing Address Organization/Firm: Frederick Derr & Company, Inc. Mailing Address: P. O. Box 2719 City: Sarasota   |
| Other Contact/Representative (to serve as additional Department contact)  |
| Name and Position Title Print Name and Title: Chris Gagliano  |
| Other Contact/Representative Telephone Numbers Telephone: 941-351-8854 Cell phone: 941-809-0715 E-mail: chrisg@frederickderrcompany.com   |
| Other Contact/Representative Mailing Address Organization/Firm: Frederick Derr & Company, Inc. Mailing Address: P. O. Box 2719 City: Sarasota County: Sarasota Zip Code: 34230-2719 |

| Type of Facility  |                        |                                      | _                      |                             |   |        |

<sup>\*</sup>RICE: Reciprocating Internal Combustion Engine

#### **Description of Facility**

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe material(s) processed, all air pollutant-emitting processes, and identify any air pollution control measures used. Mobile source equipment information is not needed (eg.: trucks, bulldozers, front-end loaders, etc.)

This facility will recycle concrete and asphalt, running approximately 150 tons per hour, with an estimate of 162,000 tons per year.

The facility will operate 9 hours per day, 5 days per week with crushing operations approximately 27 weeks per year, remainder of time will be material preparation.

### **Helpful Definitions:**

- "Capacity" Per 40 CFR 60.671, the cumulative rated capacity of all initial crushers that are part of the plant.
- "Department" or "DEP" The State of Florida Department of Environmental Protection.
- **"Emissions Unit"** Any part or activity of a facility that emits or has the potential to emit any air pollutant.
- "Facility" All of the emissions units which are located on one or more contiguous or adjacent properties, and which are under the control of the same person (or persons under common control).
- "Owner" or "Operator" Any person or entity who or which owns, leases, operates, controls or supervises an emissions unit or facility.
- "Nonmetallic Mineral Processing Plant" Per 40 CFR 60.671, any combination of equipment that is used to crush or grind any nonmetallic mineral wherever located, including lime plants, power plants, steel mills, asphalt concrete plants, portland cement plants or any other facility processing nonmetallic minerals except as provided in 40 CFR §60.670 (b) and (c).
- "Relocatable Facility" A facility such as, but not limited to, an asphalt plant, portable power generator, or relocatable nonmetallic mineral processing plant, which is designed to be physically moved to, and operated on, different sites by being wholly or partially dismantled and re-erected in essentially the same configuration. It shall not be operable while in transit.
- "Screening Operation" Per 40 CFR 60.671, a device for separating material according to size by passing undersize material through one or more mesh surfaces (screens) in series and retaining oversize material on the mesh surfaces (screens). Grizzly feeders associated with truck dumping and static (non-moving) grizzlies used anywhere in the nonmetallic mineral processing plant are not considered to be screening operations.
- "Size" Per 40 CFR 60.671, the rated capacity in tons per hour of a crusher, grinding mill, bucket elevator, bagging operation, or enclosed truck or railcar loading station; the total surface are of the top screen of a screening operation; the width of a conveyor belt; and the rated capacity in tons of a storage bin.
- "Unconfined Emissions" Emissions which escape and become airborne from unenclosed operations or which are emitted into the atmosphere without being conducted through a stack.

# NONMETALLIC MINERAL PROCESSING PLANTS BUREAU OF (CRUSHERS)

Air General Permit Example Registration Worksheet

The Department of Environmental Protection ("Department" or "DEP") has established an "air general permit" at Florida Administrative Code ("F.A.C.") Rule 62-210.310(5)(e) for nonmetallic mineral processing plants. An air general permit is an authorization by rule to construct or operate a specific type of air pollutant emitting facility. Use of such authorization by any individual facility does not require action by the Department. The terms and conditions of the air general permit are set forth in the rule, rather than in a separately issued air construction or air operation permit.

If you are the owner or operator of an eligible facility comprising one or more nonmetallic mineral processing plants, you may register to use the air general permit at Rule 62-210.310(5)(e), F.A.C., by following the general procedures given at subsections 62-210.310(2) and 62-210.310 (3), F.A.C. To register, use the Department's electronic registration system (currently under development) or submit all the information specified in the above rules to either of the following addresses, along with the air general permit registration processing fee (\$100.00), payable to FDEP.

## Regular USPS Mail Delivery

Department of Environmental Protection Receipts or Post Office Box 3070 Tallahassee, Florida 32315-3070

## Overnight Delivery (FedEx, UPS, DHL, etc.)

Department of Environmental Protection 3800 Commonwealth Blvd. Mail Station 77 Tallahassee, Florida 32399

If you properly register to use an air general permit, and are not denied use of the air general permit by the Department, you are authorized to construct and operate the facility in accordance with the general terms and conditions of Rule 62-210.310, F.A.C., and the specific terms and conditions of Rule 62-210.310(5)(e), F.A.C. Your facility may vary, so be sure your registration describes the operations at your facility in sufficient detail to demonstrate the facility's eligibility for use of the air general permit and to provide a basis for tracking any future equipment or process changes. Your registration should describe all air pollutant-emitting processes and equipment at the facility, and it should identify any air pollution control measures or equipment used.

The rules do not require any specific format for the registration. This worksheet, however, has been designed to assist owners and operators. Using it as a template for a general permit registration will help ensure that all necessary information is submitted.

Additional information can be found on the Department's air general permit program website (http://www.floridadep.org/air/emission/air gp.htm) or by calling the Small Business Environmental Assistance Program Hotline at 1-800-SBAP-HLP (1-800-722-7457).
