

## REINFORCED POLYESTER RESIN OPERATIONS AIR GENERAL PERMIT REGISTRATION FORM

RECEIVED  
 MAY 13 2010  
 Bureau of Air Quality  
 R. Mobile County

### Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

#### Registration Type

1230056-001

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- Construct and operate a proposed new facility.  
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.  
 Continue operating the facility after a change of ownership.  
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

#### Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):  
 No air operation permits currently exist for this facility.

**Comments:**

Dear Mr. Willmer:

I am in receipt of the Air General (AG) Permit Registration Form which you have submitted as your facility's intent to use the Reinforced Polyester Resin Operations AG Permit.

Upon FDEP's receipt (May 12, 2010) of AG Permit Registration forms a mandatory thirty (30) day processing and review time clock begins for the purpose of correcting any omissions, errors or reviewing applicability and processing the data.

At this time, your form as submitted cannot be considered complete. In order to be considered complete, there are several issues that we need to resolve, and they are as follows:

- 1) The form which was submitted on your behalf was a Xerographic copy and not the original. Only original, signed and dated forms can be accepted. Please send the original form and maintain a copy at your facility.
- 2) On the first page of the form (our Page #5), the sections "Registration Type" and "Surrender of Existing Air Operation Permit(s)" were not completed. (Please note that the facility where you are currently located was previously permitted under the name of S1 Marine LLC dba Seastrike.)
- 3) Page #6 of the form indicated Mr. Ken Willmer as the Owner/Authorized Representative, but yet the form was signed by the Facility Contact Ms. Roxanne Willmer. The form must be signed by the Owner/Authorized Representative and it must be an original signature, not a copy.
- 4) Page #7 of the form, under the Material Usage Rates section, if this is an initial registration, please "provide an estimate of the total quantity, in pounds of styrene-containing materials".
- 5) Page #7 of the form asks for a description of your reinforced polyester resin operations. In other words, what processes do you use to assemble your boats and what, if any, are your pollutant-emitting processes and equipment and identify any air pollution control measures or pollution control equipment that you may use.

5.21.2010

Timing is of the essence in resolving these issues since we are limited by the mandatory thirty (30) day time clock which started on May 12, 2010. If we are unable to resolve these issues before the end of the review period, I will have to deny your entitlement and I really don't want to have to do that.

Please send your updated, original form to (**DO NOT** send another fee or check, since that was already submitted and processed with your first form):
