**Subject:** CRUSHER / SCREENER INFORMATION  
**Attachments:** ELS CRUSHER.docx

Good Morning,

It was a pleasure speaking with you the other day. I appreciate your help. Attached you'll find the information on the crusher/screener. As I explained we do not have a physical address but on our load information it states: Peavy Grade, Palm Coast, FL 32137 parcel #33-10-30-0000-01030-00B0.

I spoke with Richard Banks and he said we didn't have to do anything prior to start crushing. Please advise us when we have the permit # changed to the "777" number, or if there is anything else that we need to do to ensure that we are in compliance. Again thanks for all your help with this matter. Have a nice day. You can reach me at the office with any questions or concerns.

Theresa
