Yi and Cadedra,

The subject item facility is in reality a relocatable/portable (Nonmetallic Mineral Processing Plant) unit, but was previously registered/permitted by the CD as a stationary facility.

The owner has just submitted a CCB Plant AGP Registration form (# 0830160-002-AG) for renewal to re-register the unit as a relocatable as they wish to relocate it to other areas within the state from time to time.

I have already entered the renewal data in ARMS. Would you be so kind to change the facility ID to the relocatable 777 designation so I can complete the review and registration process.

Thank you once again for your kind assistance.

Have a great day!

*Dick*
