RE: Non-Renewal/Surrendering of AG Permit, Facility ID ~~1050268~~

Dear Mr. Dibble:

Please be advised that Vulcan Materials Company, Florida Rock Division will not be renewing the AG Permit for the ready mix facility known as CR 630.

This facility has been inactive for more then a year and we have decided to cease all operations and return the site to its owner. We are in the process of removing all items from the site and the site is already in an inoperable state.

Vulcan Materials thanks FDEP for their help in permitting this site during the past years and we look forward to continue our working relationship with FDEP on other sites. Should you have any questions or concerns regarding this notification please contact me.

Sincerely,

Lori Sanville  
CFL Environmental Manager
