

Florida Department of Environmental Protection

Bob Martinez Center
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

Charlie Crist
Governor

Jeff Kottkamp
Lt. Governor

Michael W. Sole
Secretary

February 5, 2009

Ms. Ginny Miles, Manager
White Construction Company
Trawick Pit – Limestone Processing Plant
1880 Laster Road
Chipley, Florida 32428

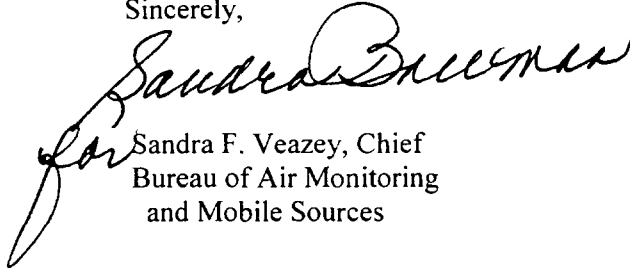

This is to acknowledge that your notification of intent to use the authority of Rule 62-210.310 to operate your facility was received on December 31, 2008. We have assigned ARMS No. 7774815-005 to this facility.

As you know, pursuant to Florida Statutes section 403.814, authority to operate under general permits commences thirty (30) days after receipt of the registration form unless you have been notified by this office that your facility has not shown entitlement to operate pursuant to the rule provisions.

For your information, authority to operate pursuant to Rule 62-210.310 expires after five (5) years. Therefore, a new registration form must be received no later than five (5) years after the date your notice was received as indicated above. If your general permit rule conditions require testing, such testing must be completed within the time frame specified in the rule.

If you have any additional questions, please contact Dickson Dibble at 850/921-9586.

Sincerely,

Sandra F. Veazey, Chief
Bureau of Air Monitoring
and Mobile Sources

SFV/pg

**NONMETALLIC MINERAL PROCESSING PLANTS (CRUSHERS)
AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. (\$100 as of the effective date of this form)

7774815-005

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
N/A
- No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

White Construction Company

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Trawick Pit —Limestone Processing Plant

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: **1880 Laster Road**

City: **ChIPLEY**

County: **Washington**

Zip Code: **32428**

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)

N/A

RECEIVED

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Print Name and Title: **Fred Andrews, Environmental Manager**

Owner/Authorized Representative Mailing Address

Organization/Firm: **White Construction Company**

Street Address: **Post Office Box 790**

City: **Chiefland**

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Fred Andrews.

Type of Facility

Check one:

Stationary Facility

Relocatable Facility

Type(s) of Precautions Used to Prevent Unconfined Emissions

Check all that apply for the management of roads, parking areas, stock piles and yards:

Maintain Roads/Parking/Yards

Use Water Application

Use Dust Suppressant

Remove Particulate Matter

Reduce Stock Pile Height

Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

Feeders

Entrance to "Crusher"

Exit of "Crusher"

Classifier Screens

Conveyor Drop Points

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Equipment is located at a mine or quarry and processes only material from onsite natural deposits. Per Rule 62-210.310(5)(e) F.A.C., no water suppression system with spray bars are required.

This facility generally processed recently mined material that is nearly saturated with water. Processing moist material helps to prevent the spread of unconfined particulate matter emissions.

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

This application is being submitted to provide the FDEP with a list of equipment currently being utilized at the facility.

The facility processes limestone at a material process rate for the Cedar Rapids Crusher is approximately 270 tons per hour, base on the crusher capacity. The portable screening operation process material at a rate of approximately 80 tons per hour.

This application is being submitted with the following:

- 1. Copies of the annual visible emissions observations for the facility and**
- 2. An updated "Affected Facility Description" table listing both the equipment in operation at the facility.**

Field Data Sheets

Portable Crusher

Table 1. Affected Facilities Description

The diagram illustrates the site layout. A central 'Emission Point' is located between a 'Screen' and a 'Crusher'. A 'Hopper' is positioned above the emission point. A 'Pile' is shown to the left, with a 'Sun' and 'Wind' direction indicated. 'Observers Positions' are marked at the bottom, with a '140°' angle between the emission point and the sun. A 'Sun Location Line' is drawn from the sun to the emission point. A north arrow is also present.

AVERAGE OPACITY FOR HIGHEST PERIOD

RANGE OF OPACITY READINGS MINIMUM _____ MAXIMUM _____

NUMBER OF READINGS ABOVE % WERE

OBSERVER'S NAME (PRINT): **James D. Langston**

OBSERVER'S SIGNATURE: *James D. Langston* DATE: **12/17/08**

ORGANIZATION: **KOGLER AND ASSOCIATES, INC.**

CERTIFIED BY: **ETA** DATE: **11/08**

VERIFIED BY: _____ DATE: _____

SOURCE NAME: **WHITE CONSTRUCTION COMPANY**

ADDRESS: **1880 LASTER ROAD**

CITY: **CHIPLEY** STATE: **FL** ZIP: **32428**

PHONE: **850 638-8762** SOURCE ID NUMBER: **Portable Screening under belt**

PROCESS EQUIPMENT: **under belt** OPERATING MODE: **80 Tph**

CONTROL EQUIPMENT: **NONE** OPERATING MODE: **Normal**

DESCRIBE EMISSION POINT START: **d.p. to belt from hopper STOP**

HEIGHT ABOVE GROUND LEVEL START: **1** STOP: **1** HEIGHT RELATIVE TO OBSERVER START: **1** STOP: **1**

DISTANCE FROM OBSERVER START: **50'** STOP: **50'** DIRECTION FROM OBSERVER START: **312** STOP: **312**

DESCRIBE EMISSIONS START: **none** STOP: **none**

EMISSION COLOR START: **none** STOP: **none** PLUME TYPE: CONTINUOUS FUGITIVE INTERMITTENT

WATER DROPLETS PRESENT: NO YES IF WATER DROPLET PLUME: ATTACHED DETACHED

POINT IN THE PLUME AT WHICH OPACITY WAS DETERMINED START: **at d.p. to belt area STOP**

DESCRIBE BACKGROUND START: **tree line** STOP: **tree line**

BACKGROUND COLOR START: **green** STOP: **green** SKY CONDITIONS START: **f.c.** STOP: **f.c.**

WIND SPEED START: **0** STOP: **0** WIND DIRECTION START: **0** STOP: **0**

AMBIENT TEMP: START: **81** STOP: **81** WET BULB TEMP: **69** RH.percent: **54**
