Dear Mr. Morris,

Our office has reviewed the Air General Permit (AGP) Registration Form for the St. Catherine Mine Nonmetallic Mineral Processing Plant (NMMP) and the cover letter of Ms. Fawn Bergen of Golder Associates (see attachment), and held subsequent discussions with you, in order to determine the need for a re-registration at this time.

Based on a comparison of DEP's current AGP records for this facility (7774817-008-AG, effective 02/12/09) and the equipment information included in your recent AGP registration submittal (see attachment), it was concluded that there has been no change of equipment at your facility and as a result a re-registration of your facility is not required at this time. Therefore, a refund request will be made for the \$100.00 AGP processing fee which Golder Associates submitted on your behalf to the DEP office.

The above determination was based on the rules following Florida Administrative Code (F.A.C.) rules:

According to Rule 62-210.310(2) (b) 2.a. thru d., F.A.C., re-registration is required for the following reasons:

- a) Impending expiration of the term for air general permit use;
- b) Change of ownership of all or part of the facility;
- c) Proposed new construction, modification, or other equipment change that requires registration pursuant to paragraph 62-210.310(2)(e), F.A.C.*; and
- d) Any other change not considered an administrative correction under paragraph 62-210.310(2)(d), F.A.C.**

Reference:

*Rule 62-210.310(2)(e), F.A.C. - (e) Equipment Changes. The owner or operator shall maintain records of all equipment changes. In the case of installation of new process or air pollution control equipment, alteration of existing process or control equipment without replacement, or replacement of existing process or control equipment with equipment substantially different in terms of capacity, method of operation, material processed, or intended use than that noted on the most recent registration form, the owner or operator shall submit a new and complete air general permit registration form for the facility with the appropriate fee pursuant to Rule 62-4.050, F.A.C. to the Department, provided, however, that any change that would constitute a new major stationary source, major modification, or modification that would be a major modification but for the provisions of paragraph 62-212.400(2)(a), F.A.C., shall require authorization by air construction permit.

****Rule 62-210.310(2)(d), F.A.C. - (d) Administrative Corrections.** Within thirty (30) days of any minor changes requiring corrections to information contained in the registration form, the owner or operator shall notify the Department in writing. Such changes shall include:

1. Any change in the name, address, or phone number of the facility or authorized representative not associated with a change in ownership or with a physical relocation of the facility or any emissions units or operations comprising the facility; or
2. Any other similar minor administrative change at the facility.

If you have any questions, comments or concerns please e-mail or call.

Thank you and have a great day!

Sincerely yours,

Dickson E. Dibble

Good morning Ms. Bergen!

You are welcome!

I am preparing the refund request for processing, but am uncertain as to the correct send to address, whether it be the Golder Colorado, or the Gainesville location.

If it is the Gainesville office, I do not have that address.

Would you be so kind to advise me?

Thank you.

Sincerely yours,

Dickson E. Dibble

Dear Mr. Morris,

Our office has reviewed the Air General Permit (AGP) Registration Form for the St. Catherine Mine Nonmetallic Mineral Processing Plant (NMMP) and the cover letter of Ms. Fawn Bergen of Golder Associates (see attachment), and held subsequent discussions with you, in order to determine the need for a re-registration at this time.

Based on a comparison of DEP's current AGP records for this facility (7774817-008-AG, effective 02/12/09) and the equipment information included in your recent AGP registration submittal (see attachment), it was concluded that there has been no change of equipment at your facility and as a result a re-registration of your facility is not required at this time. Therefore, a refund request will be made for the \$100.00 AGP processing fee which Golder Associates submitted on your behalf to the DEP office.

The above determination was based on the rules following Florida Administrative Code (F.A.C.) rules:

According to Rule 62-210.310(2) (b) 2.a. thru d., F.A.C., re-registration is required for the following reasons:

- a) Impending expiration of the term for air general permit use;
- b) Change of ownership of all or part of the facility;
- c) Proposed new construction, modification, or other equipment change that requires registration pursuant to paragraph 62-210.310(2)(e), F.A.C.*; and
- d) Any other change not considered an administrative correction under paragraph 62-210.310(2)(d), F.A.C.**

Reference:

*Rule 62-210.310(2)(e), F.A.C. - (e) Equipment Changes. The owner or operator shall maintain records of all equipment changes. In the case of installation of new process or air pollution control equipment, alteration of existing process or control equipment without replacement, or replacement of existing process or control equipment with equipment substantially different in terms of capacity, method of operation, material processed, or intended use than that noted on the most recent registration form, the owner or operator shall submit a new and complete air general permit registration form for the facility with the appropriate fee pursuant to Rule 62-4.050, F.A.C. to the Department, provided, however, that any change that would constitute a new major stationary source, major modification, or modification that would be a major modification but for the provisions of paragraph 62-212.400(2)(a), F.A.C., shall require authorization by air construction permit.

**Rule 62-210.310(2)(d), F.A.C. - (d) Administrative Corrections. Within thirty (30) days of any minor changes requiring corrections to information contained in the registration form, the owner or operator shall notify the Department in writing. Such changes shall include:

1. Any change in the name, address, or phone number of the facility or authorized representative not associated with a change in ownership or with a physical relocation of the facility or any emissions units or operations comprising the facility; or
2. Any other similar minor administrative change at the facility.

If you have any questions, comments or concerns please e-mail or call.

Thank you and have a great day!

Sincerely yours,

Dickson E. Dibble

**RE: AIR GENERAL PERMIT RE-REGISTRATION – FACILITY ID NO. 7774817
CEMEX CONSTRUCTION MATERIALS FLORIDA, LLC; ST CATHERINE MINE**

Dear Mr. Dibble:

Enclosed please find an Air General Permit Registration form for a nonmetallic mineral processing plant. At the request of the Department's Southwest District Office of Compliance and Enforcement, CEMEX Construction Materials Florida, LLC (CEMEX) is submitting this re-registration form for their St. Catherine Mine, located in Sumter County. This form is being submitted to clarify 40 CFR 60 Subpart 000 applicability, emission point numbers and descriptions, and verify emission points subject to visible emissions (VE) testing requirements.

Also enclosed is a check for \$100 to cover the application fee along with supporting documentation (summary table and process flow diagram) to accompany the application.

If you have any questions, please feel free to contact Fawn Bergen, Golder Associates, consultant to CEMEX, at 970.484.3857 or FBergen@golder.com, or James Morris, Environmental Manager at 352.796.3522 or jpmorris@cemexusa.com. #190

Respectfully,

GOLDER ASSOCIATES INC.

AIR GENERAL PERMIT REGISTRATION FORM

Bureau of Air Monitoring
& Mobile Sources

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- ☐ Construct and operate a proposed new facility.
- ☐ Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- ☐ Continue operating the facility after expiration of the current term of air general permit use.
- ☐ Continue operating the facility after a change of ownership.
- ☒ Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- ☐ All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
- ☐ No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

CEMEX Construction Materials Florida, LLC

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

St. Catherine Mine

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 3919 County Road 673

City: St. Catherine

County: Sumter - 33513

Zip Code:

Facility Start-Up Date (Estimated start-up date of proposed new facility.)(N/A for existing facility)

N/A (existing)

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Type of Facility

Check one:

☐ Stationary Facility☒ Relocatable Facility**Type(s) of Precautions Used to Prevent Unconfined Emissions**

Check all that apply for the management of roads, parking areas, stock piles and yards:

☒ Maintain Roads/Parking/Yards☒ Use Water Application☐ Use Dust Suppressant☐ Remove Particulate Matter☐ Reduce Stock Pile Height☐ Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

☐ Feeders☐ Entrance to "Crusher"☐ Exit of "Crusher"☐ Classifier Screens☐ Conveyor Drop Points**Description of Reasonable Precautions**

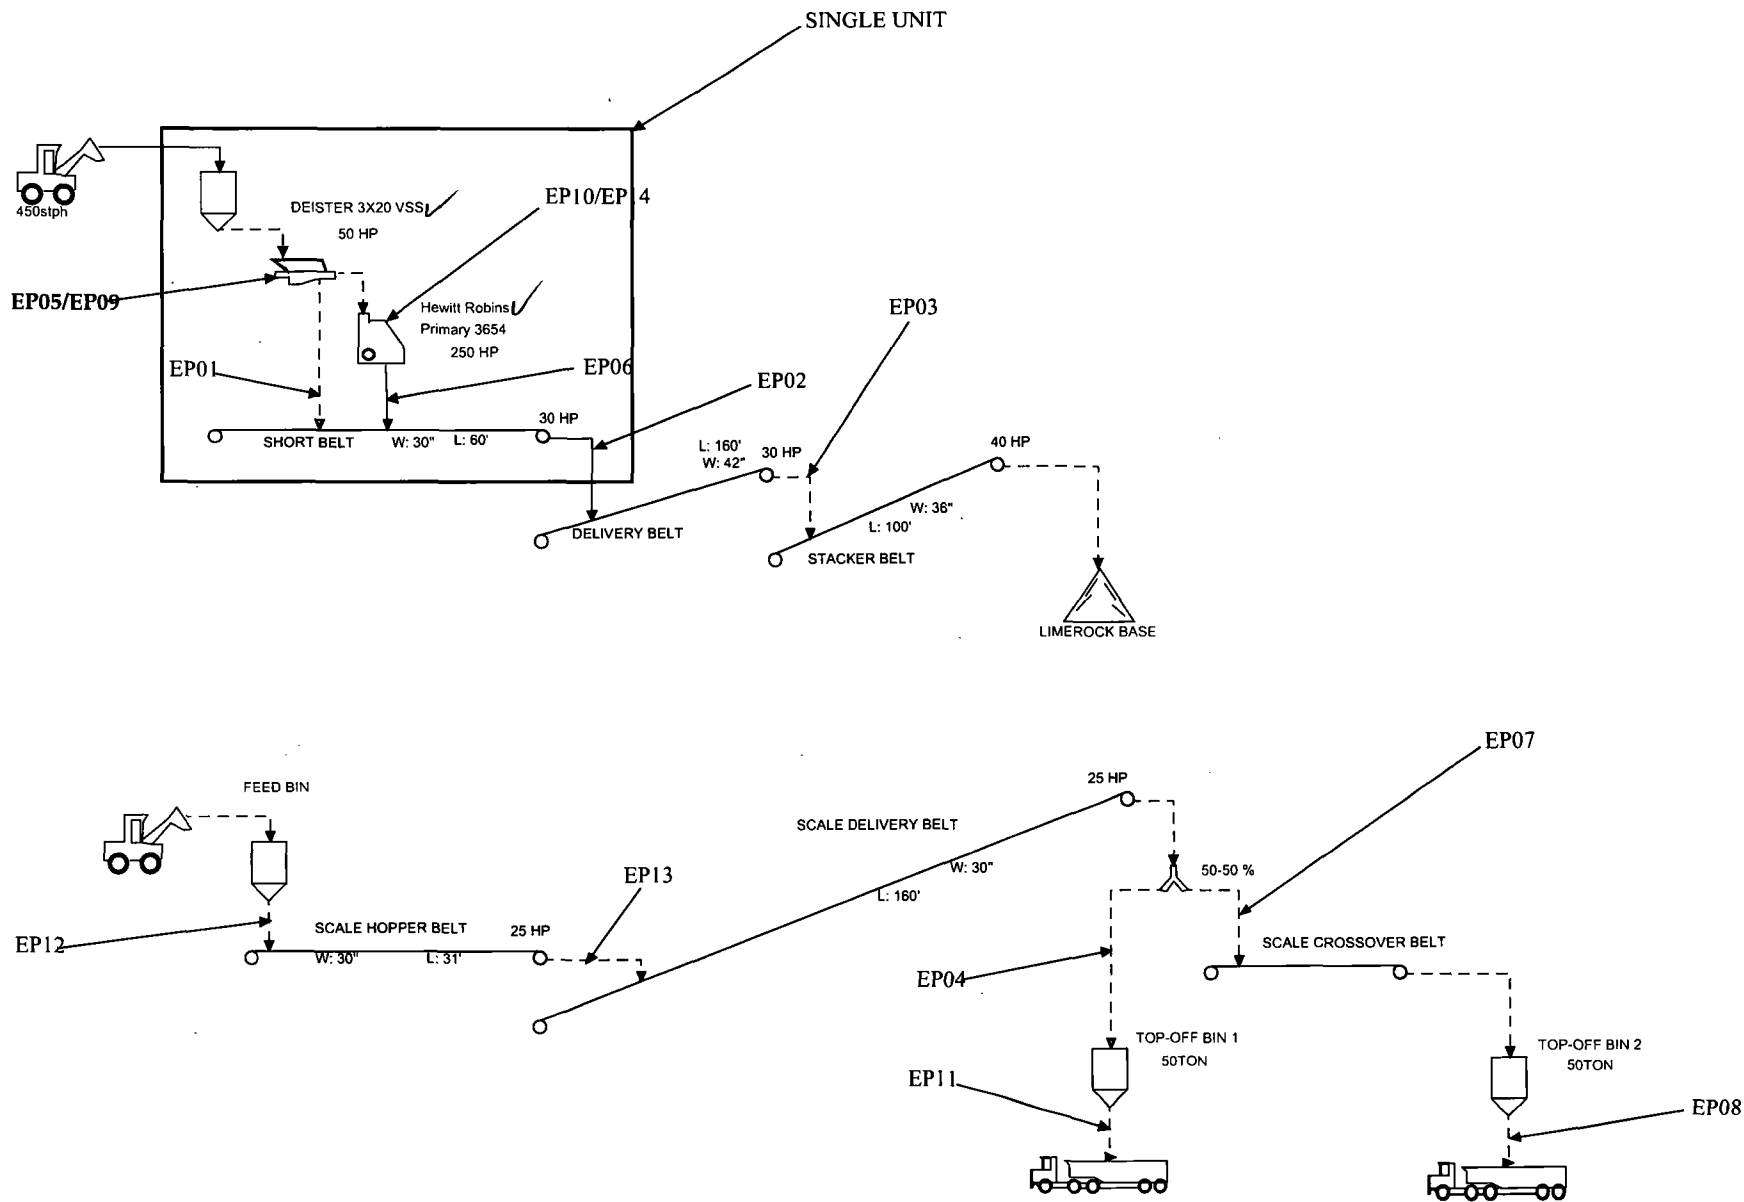

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

The material at the St. Catherine Mine is located below the water line. Therefore, the material has a high moisture content (20-25%) which greatly reduces the generation of fugitive particulate matter emissions. A water truck also sprays water on the roadways to reduce the generation of emissions.

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The St. Catherine Mine is a relocatable limestone processing facility. The facility processes a maximum of 500 TPH and 1,000,000 TPY of limestone. Refer to attached process flow diagram and summary table describing facility emission points, including manufacture or modification dates and 40 CFR Subpart OOO applicability.

Run: 1/6/11 09:03:23

Calculation results may differ due to variations in operating conditions and application of crushing and screening equipment. This information does not constitute an express or implied warranty, but shows results of calculations based on information provided by customers or equipment manufacturers. Use this information for estimating purposes only.

Summary of Emission Points - CEMEX Construction Materials Florida, LLC; St. Catherine Mine

EP ID No.	Emission Point Description	NSPS OOO Applicable?	VE Limit (%)	VE Read Emission Point ^a
✓EP01	Diester Screen to Fines Belt (No. 1 Feeder Belt) - Enclosed	Yes	10	EP09
EP02	No. 2 Crusher Under-Belt to Stacker Feed Belt	Yes	10	EP02
EP03	No. 3 Stacker Feeder Belt to Radial Stacker Belt	Yes	10	EP03
EP04	Bi-Directional Belt to Inside Scale Bin (No. 11 Hopper)	Yes	10	EP04
EP05	Diester Screen to No. 12 Crusher Feed Belt (Crusher Inlet) - Enclosed	Yes	15	EP06
✓EP06	No. 10 Roll Crusher to Crusher Under Belt (Crusher Exit)	Yes	15	EP06
EP07	No. 4 Bi-Directional Belt to Outside Scale Bin	Yes	10	EP07
EP08	Outside Top-off Hopper to Truck (No. 13 Hopper)	Yes	10	EP08
EP09	Crusher Hopper to Diester Screen	Yes	10	EP09
EP10	Fines Belt to Stacker Feeder Belt - Enclosed	Yes	10	EP09
EP11	Inside Top-Off Hopper to Truck	Yes	10	EP11
EP12	Bin Loading Hopper to Riser Conveyor	Yes	10	EP12
EP13	Riser Conveyor to Bi-Directional Belt	Yes	10	EP13
EP14	Crusher Feed Belt to Crusher (Crusher Inlet) - Enclosed	Yes	15	EP06

Note: Emission point description, NSPS applicability and VE observation "read" point, based on determination by FDEP Southwest District Office (W. Simmons), 2011.

^a Since several emission points are enclosed, FDEP has determined that some emission points shall be observed and compliance demonstrated at the location of visible emission points as noted. VE observations at one single read point for some combined emission points. A total of **10 emission points** require annual VE observations.

**NONMETALLIC MINERAL PROCESSING PLANTS (CRUSHERS)
AIR GENERAL PERMIT REGISTRATION FORM**

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- ☐ Construct and operate a proposed new facility.
☐ Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- ☐ Continue operating the facility after expiration of the current term of air general permit use.
☒ Continue operating the facility after a change of ownership.
☐ Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- ☐ All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): _____
☐ No air operation permits currently exist for this facility.
