DIVISION OF AIR
RESOURCE MANAGEMENT

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing permitted facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit). If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. (See "Surrender of Existing Air Operation Permit(s)" below.)
- Operates an existing facility not currently permitted or using an air general permit.

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C.
- Any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only, if Applicable

All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):

7775055-004-AG

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Woodruff & Sons, Inc.

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a complete registration must be submitted for each.)

Soil Cement Plant #1387-2

Facility Location (Physical location of the facility, not necessarily the mailing address.)

Street Address: 6450-31st Street East

City: Bradenton

County: Manatee

Zip Code: 34203

Facility Start-Up Date (Estimated start-up date of proposed new facility.) (N/A for existing facility.)

n/a

Facility Contact

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)

Print Name and Title: Bruce R. Woodruff, Vice President

Facility Contact Telephone Numbers

Telephone: 941-756-1871

Fax: 941-755-1379

Cell phone: 941-713-2026

E-mail: brucew@woodruffandsons.com

Facility Contact Mailing Address

Organization/Firm: Woodruff & Sons, Inc.

Mailing Address: P.O. Box 10127

City: Bradenton

County: Manatee

Zip Code: 34282-0127

Correspondence Contact/Representative (to serve as additional Department contact)

Name and Position Title

Print Name and Title: Bill Gleason, Safety Director

Correspondence Contact/Representative Telephone Numbers

Telephone: 941-756-1871

Fax: 941-755-1379

Cell phone: 941-713-2023

E-mail: billg@woodruffandsons.com

Correspondence Contact/Representative Mailing Address

Organization/Firm: Woodruff & Sons, Inc.

Mailing Address: P.O. Box 10127

City: Bradenton

County: Manatee

Zip Code: 34282-0127

Government Facility Code (check only one)

- Facility not owned or operated by a federal, state, or local government.
- Facility owned or operated by the federal government.
- Facility owned or operated by the state.
- Facility owned or operated by the county.
- Facility owned or operated by the municipality.
- Facility owned or operated by a water management district.

Type of Facility

Check one:

Stationary Facility Relocatable Facility

Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions

Check all precautions to be used for the management of roads, parking areas, stock piles and yards:

Pave Roads Pave Parking Areas Pave Yards
 Maintain Roads/Parking/Yards Use Water Application Use Dust Suppressant
 Remove Particulate Matter Reduce Stock Pile Height Install Wind Breaks

Check all precautions to be used for the management of drop points to trucks:

Spray Bar Chute Enclosure
 Partial enclosure

Equipment Details Provide information for each silo, weigh hopper (batcher), and other enclosed storage and conveying equipment that are limited to a visible emissions of 5 percent opacity pursuant to Rule 62-296.414(1), F.A.C.

PROCESS EQUIPMENT TYPE (silo, weigh hopper, batcher, etc.)	PROCESS EQUIPMENT IDENTIFICATION*	CONTROL DEVICE (baghouse, vent filter, etc.)	CONTROL DEVICE MANUFACTURER	CONTROL DEVICE MODEL NUMBER

* If there are multiple pieces of the same types of process equipment (more than one silo, etc), provide an identifier (location, numeric designation, capacity or product) specific to each piece of equipment.

Description of Facility

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe type of concrete product(s) manufactured, all air pollutant-emitting processes, and identify any air pollution control measures used. Mobile source equipment information is not needed (eg.: trucks, bulldozers, front-end loaders, etc.)

This facility is a portable Soil Cement Mixing Plant manufactured by ARAN, Model ASR-280E, Serial #1026. It is a pre-fabricated unit and is relocatable. The plant has one cement storage silo, a pugmill mixer, a weight hopper, and a truck loadout. The plant is powered by Cummins Engine Serial# 6CT8.3 210HP diesel engine. Emissions from the pneumatic filling of the silo are controlled by a model DLM V30/15 baghouse. The soil cement produced has sufficient moisture content that it does not generate dust during truck loading.

Woodruff & Sons, Inc.

Reasonable Precautions to Prevent Emissions of Unconfined Particulate Matter

Soil Cement Plant #1387-2

Woodruff & Sons, Inc. will at all times take reasonable precautions to prevent its soil cement mixing equipment and associated facilities from emitting unconfined particulate matter. These precautions will include:

- 1) Maintaining and operating all air pollution control equipment required by the General Permit.
- 2) Watering roads as necessary to prevent vehicular traffic from entraining dust.
- 3) Posting and enforcing a 5 miles per hour (mph) speed limit in all areas.
- 4) Performing regular maintenance of roads, yards and parking areas to prevent accumulation of dust.
- 5) Training equipment operators to minimize drop heights during loading and unloading operations.
- 6) Routing exiting traffic through a tire wash pit to remove dust from vehicle tires before they enter paved roadways.
