Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative

I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Stationary Facility

Relocatable Facility

Type(s) of Precautions Used to Prevent Unconfined Emissions

Check all that apply for the management of roads, parking areas, stock piles and yards:

Maintain Roads/Parking/Yards

Use Water Application

Use Dust Suppressant

Remove Particulate Matter

Reduce Stock Pile Height

Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:

Feeders

Entrance to "Crusher"

Exit of "Crusher"

Classifier Screens

Conveyor Drop Points

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Please see Attachment 1.

Dept. Of Environmental Protection

JUL 18 2008

Southwest District

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The unit is a BL Pegson Company, Model No. 26x44, Crushing/Processing Plant that processes nonmetallic minerals (materials) such as reclaimed asphalt, gravel, and concrete.

1. Material received from trucks is dumped on the ground in outdoor storage piles.
2. Emission Point Number 1:
 - A. Material from the outdoor storage piles is transferred by front-end loader to a vibrating grizzly Feeder.
3. Emission point number 1, top of crusher: From the bottom of the Grizzly Feeder the material is transferred directly (dropped) into the top of a crusher.
4. Emission Point Number 2: From the bottom of the crusher the material drops onto Conveyor Belt No. 1.
5. Emission Point Number 3: Conveyor Belt No. 1 transfers the material to outdoor storage piles, to conveyor belt No. 2, or to a rotating screener.
6. Emission Point Number 4: Conveyor Belt No. 2 transfers the material to outdoor storage piles or to a rotating screener.
7. Emission Point Number 5: Material from the rotating screener is transferred to outdoor storage piles.
8. Material from the outdoor storage piles is then transferred to trucks by front-end loaders.

water spray dust suppression systems are located at the grizzly feeders, crushers, conveyor belt drop points, screens, and discharge pans and are used as necessary to control unconfined particulate emissions.

Ron,

Also, just a reminder, please don't forget to request a withdrawl of the renewal registration for the relocatable Pegson Crusher (AIRS ID# 7775162).

As you mentioned during our telephone conversation the Pegson unit is now and forever classified as a permanent stationary unit at the 14211 SR 54, Odessa site under the Air Curtain Incinerator Permit # 1010378-006-AO. To support that position and according to your comments, if ever moved the Pegson unit will be sold rather than be relocated.

Thank you,

*Dick***Dickson E. Dibble, ES III**

Subject: AIRS ID# 7770420

Ron,

There is always one more question, but at least I'm not calling you on the phone.

With the Steadman crusher the **Air General Permit (AG)** (AIRS ID# 7770420) for the relocatable our database indicates there is an additional Emission Unit of the following description: **Portable Caterpillar -Lima 40KW/400 H.P. Generator.**

Is the above accurate or not, because there is no reference on your renewal form regarding the source of power or energy supply for the crusher? If the above is in fact the power source for the Steadman please let me know, or if different please advise and supply the make, model, s/n, and hp, fuel source, and if it is a generator the kW.

Thank you for your assistance.

Dick

Subject: RE: Awaiting your e-mail verification regarding the results of your visit to Odessa P.A.W. Materials...

Dick,

Sorry I was sick Thursday and Friday. Here is the information you requested:

As of August 5:

ACI (EU 001) – not relocatable, located at 14201 SR 54 Odessa

Steadman (EU 002) – relocatable, located at 17728 US 41 Springhill

600-HP Engine (EU 003) - relocatable, located at 17728 US 41 Springhill

Pegson (EU004) - **not** relocatable, located at 14201 SR 54 Odessa

335-HP Engine (EU005) - **not** relocatable (associated with EU 004), located at 14201 SR 54 Odessa

Handwritten: 7770420

Thanks and please call me with any questions.

Joe Graham

Joseph,

You had mentioned Wednesday evening, during our telephone conversation, that you were going to e-mail me the results of your findings on Thursday morning. I just wanted to verify whether or not you had sent it to make sure that if you had that it hadn't gotten lost in cyberspace.

Thanks,

Dick
