**NONMETALLIC MINERAL PROCESSING PLANTS (CRUSHERS)
AIR GENERAL PERMIT REGISTRATION FORM**

DIVISION OF ^{AIR}
RESOURCE MANAGEMENT

Part II. Notification to Permitting Office

(Detach and submit to appropriate permitting office; keep copy onsite)

Instructions: To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050, F.A.C. (\$100 as of the effective date of this form)

7775193-003

Registration Type

Check one:

INITIAL REGISTRATION - Notification of intent to:

- Construct and operate a proposed new facility.
 Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

RE-REGISTRATION (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
 Continue operating the facility after a change of ownership.
 Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s):
 7775193-002-AG _____
 No air operation permits currently exist for this facility.

General Facility Information

Facility Owner/Company Name (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)
 Crush-It, Inc.

Site Name (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Facility Location (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 6000 E. Hanna Ave
 City: Tampa

County: Hillsborough

Zip Code: 33610 - 4060

Facility Start-Up Date (Estimated start-up date of proposed new facility.) (N/A for existing facility)
 07/16/2012

Owner/Authorized Representative

Name and Position Title (Person who, by signing this form below, certifies that the facility is eligible to use this air general permit.)
Print Name and Title: William D. Richardson, President

Owner/Authorized Representative Mailing Address
Organization/Firm:Crush-It, Inc.
Street Address:PO Box 1210
City:Osprey County:FL Zip Code:34229

Owner/Authorized Representative Telephone Numbers
Telephone:(941) 918-2400 Fax:(941) 918-2401
Cell phone (optional):

Facility Contact (If different from Owner/Authorized Representative)

Name and Position Title (Plant manager or person to be contacted regarding day-to-day operations at the facility.)
Print Name and Title:

Facility Contact Mailing Address
Organization/Firm:
Street Address:
City: County: Zip Code:

Facility Contact Telephone Numbers
Telephone: Fax:
Cell phone (optional):

Owner/Authorized Representative Statement

This statement must be signed and dated by the person named above as owner or authorized representative
I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.

I will promptly notify the Department of any changes to the information contained in this registration form.

Signature William D. Richardson Date 7-17-12

Type(s) of Precautions Used to Prevent Unconfined Emissions

Check all that apply for the management of roads, parking areas, stock piles and yards:		
<input type="checkbox"/> Maintain Roads/Parking/Yards	<input checked="" type="checkbox"/> Use Water Application	<input type="checkbox"/> Use Dust Suppressant
<input type="checkbox"/> Remove Particulate Matter	<input type="checkbox"/> Reduce Stock Pile Height	<input type="checkbox"/> Install Wind Breaks

Check the location of spray bars at the nonmetallic mineral processing plant:		
<input checked="" type="checkbox"/> Feeders	<input checked="" type="checkbox"/> Entrance to "Crusher"	<input checked="" type="checkbox"/> Exit of "Crusher"
<input type="checkbox"/> Classifier Screens	<input checked="" type="checkbox"/> Conveyor Drop Points	

Description of Reasonable Precautions

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Crush-It, Inc. strives to maintain a high level of dust control at each job site. We keep traffic at a low speed in the yards and keep roadways around the crusher and equipment watered to suppress dust. Crush-It, Inc. requires our customers to have water available at each job location. Also, we have newer, efficient tier 3 diesel engines. Crush-It, Inc. has a low employee turn-over rate which means our employees are highly skilled at their jobs, each familiar with the crusher and accompanying equipment.

Description of Facility

Below, or as an attachment to this form, provide a description of the nonmetallic mineral processing operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

The daily process with which the crusher and our crews perform are as follows:

1. The excavator loosens and sorts the rubble pile which can consist of either concrete or asphalt.
2. The loader then scoops up the loosened and sorted rubble pile and drops the material in the feed hopper of the crusher.
3. The material is then run through the crusher and screened.
4. After screening, the material is deposited onto the radial stacker and stockpiled.

Water is continually running during the crusher process to eliminate dust. We normally have a 4-man crew consisting of a crusher operator, loader operator, excavator operator and laborer.

The following is a detailed description of our equipment:

1. Eagle 1200 Crusher, serial number 22441
Capacity in T/HR is more than 150 tons per hour
2. Crusher power unit is a John Deere, serial number RG6125A015185
3. Screening operation consists of Simplicity 80 FT2, serial number 2516-M110B-5508, model number M110B with the same fuel type as the power unit.

There is no screening operation power unit because the screening operation is not a stand-alone unit.

RE: Change of ownership from Mulliniks Recycling permit # 7775193-002-AG to Crush-It, Inc.

Dear Mr. Dibble:

We are submitting an application for change of ownership of air general permit # 7775193-002-AG. We have recently purchased a 2003 Eagle Crusher from Mulliniks Recycling. It is our understanding that his permit was still active.

Enclosed, please find DEP form NO 62-210.920(2) (e) Nonmetallic Processing Plant Air General Permit Registration Form (Crusher). We recently (07/16/2012) had a VE test performed on the crusher which passed, however we have not received the written results yet. Also enclosed is the \$100 processing fee.

Please send the renewal permit to our mailing address or email to john@customcrushers.com as we do not receive mail at the facility location:

Crush-It, Inc.
PO Box 1210
Osprey, FL 34229

If you need anything further, please contact me at 941-918-2400.

Sincerely,

William D. Richardson
President
